HETCH ANNOUNCES RUN FOR DIXIE'S 4th

BY Miguel Sanchez

Above is a picture of Hetch giving a pro freedom speech in Germany on a diplomatic mission.

Today a fellow Dixian Conservative announced that he would be running for the seat up for grabs in Dixie's 4th district. He said, "With the great progress we have had over the last administration, I intend to help continue driving America and the World forward with the pursuit of life, liberty, and freedom." He promises that if he

is elected, he will restore order to congress and not allow the Democrats and Socialists to run congress like a 1984 dystopia. His biggest concern in this election is to create a better, but less costly, education system so all kids have an equal chance to get ahead, no matter where they come from. To do this, he intends to put forth bills that encourage kids from impoverished communities to get involved in stem programs that later in life will yield a higher salary. He also wants to implement a welfare responsibility program. He acknowledged that while most of the welfare recipients are not committing fraud, it still happens. The United States Government Accountability Office estimates fraudulent charges account for 1 out of 10 payments. “That is billions of wasted taxpayer dollars that are going to people who don’t have the grit to get off their couch and apply for a job.” he stated. He thinks the best solution to this issue is to have drug tests, have a welfare recipient pick up their checks at the local US Post Office to have their fingerprint scanned (to prevent people from acting like other people), and finally have a program called Work for Welfare, a program that requires proof of job applications and responses from possible employers as to the status of if they go the job or not. If they are offered a job and don’t take it their welfare will be revoked until they find a job. His campaign manager said there are more detailed plans to come, but he is excited for the upcoming debates he will have with his opponents.
