**Privacy Policy for TranslateAI: Speak to Worlds!**

At TranslateAI: Speak to Worlds: Your Future, Now!, we prioritize the privacy of our users. This Privacy Policy outlines the types of information we collect and record, and how we use it.

Should you have more inquiries or need further details about our Privacy Policy, feel free to reach out to us.

**Log Files**

TranslateAI: Speak to Worlds adheres to a typical process of using log files. These files register users when they engage with the app. Data collected by log files encompass IP addresses, browser variant, ISP, timestamps, referring/exit pages, and perhaps click counts. This data isn't connected to any personally identifiable details. Its main function is trend analysis, app management, user movement tracking on the app, and collecting broad demographic data.

**Voice Data Usage and Protection**

At our service, we utilize artificial intelligence to provide instant translation. We prioritize user privacy and data security in all our operations.

- **No Storage of Voice Data:** We do not store any voice recordings. Our system is designed to process voice data in real-time without retaining any copies.
- Real-Time Translation:The artificial intelligence processes the voice data in real-time, translating it instantly without storing any part of the data.
- **Data Security:** Throughout the translation process, we ensure the highest level of data security. Your voice data is directly transmitted to our AI and is not accessible to any third parties.
- **User Privacy:**Our commitment to user privacy is unwavering. We guarantee that your voice data is used solely for the purpose of real-time translation.

**Our Advertising Affiliates**

Certain advertisers in our app could deploy cookies and web beacons. For your convenience, we've linked their Privacy Policies:

- [Google](Google)

**Privacy Directives**

Users can peruse this list to acquaint themselves with the Privacy Policies of each of our advertising associates.

Third-party advertisement entities might employ technologies like cookies, JavaScript, or Beacons for their ads and links displayed on TranslateAI: Speak to Worlds. Your IP address

is automatically accessed when this happens. Such techniques aim to upscale their ad effectiveness and tweak the ad content you witness on this or other apps or platforms.

It's essential to acknowledge that TranslateAI: Speak to Worlds doesn't have any influence over the cookies utilized by third-party advertisers.

**Third Party Privacy Policies**

Our Privacy Policy doesn't extend to external advertisers or websites. We suggest consulting the distinct Privacy Policies of these third-party servers for more exhaustive data.

**Information of Minors**

Shielding young individuals during their digital ventures is our goal. We encourage caregivers to supervise, partake in, and oversee their child's online engagements.

TranslateAI: Speak to Worlds abstains from gathering Personal Identifiable Information from children below 13. If you believe your child has shared such information on our platform, please contact us straight away for its immediate removal.

**Online Privacy Policy Exclusivity**

This Privacy Policy only caters to our digital activities and is applicable for users of our app concerning the information they furnished or collected in TranslateAI: Speak to Worlds. Offline data collection or via other channels outside this app isn't under this policy's purview.

**Acceptance**

Engaging with our app implies your consent to this Privacy Policy and an agreement to its stipulations.

**Feature-Specific Data Handling** TranslateAI: Speak to Worlds offers unique functionalities related to providing insights into the future, such as visualizing pregnancy, seeing future offspring, and merging photos to generate combined outcomes. Our handling of this data is explicitly outlined below:

- **Pregnancy Visualization:** When users upload their photos to see a pregnant version of themselves, the app processes the image and offers a visual output. The original image, as well as the processed result, are neither stored nor retained beyond the session. Once the user closes the app or moves to another function, all data related to this feature is purged from our servers.
- **Future Offspring Visualization (Upcoming Feature):** In this feature, users will be able to visualize potential future children. The same strict privacy standards apply. We don't store, retain, or use the images beyond the immediate processing required to generate the output.
- **Photo Merging for Combined Outcome (Upcoming Feature):** Users who choose to blend photos with their partners will receive a combined image output. Both the original images and the generated result are ephemeral, existing only for the immediate session. Our system is designed to erase these images as soon as the feature is used.

All these features strictly adhere to the no-storage principle. Our goal is to ensure immediate processing for real-time user enjoyment without compromising user data.

**Data Breach Procedures** We are committed to ensuring the security of our users' data. However, in the unlikely event of a data breach, we will take the following steps:

1. **Immediate Action:** Our technical team will work swiftly to identify and remedy the breach source.
2. **User Notification:** Affected users will be informed promptly about the nature of the breach and the data that may have been compromised.
3. **Remedial Measures:** We will assess and implement additional security protocols to prevent future breaches.

We continually work on fortifying our data security and are vigilant about potential vulnerabilities.

**User Control and Rights** Every user of TranslateAI: Speak to Worlds has the right to:

1. **Access:** Request copies of your personal data.
2. **Rectify:** Correct any inaccurate or incomplete data.
3. **Erase:** Request for personal data to be deleted under specific conditions.
4. **Restrict Processing:** Object to the processing of personal data under certain conditions.
5. **Portability:** Request the transfer of data to another organization or directly to you, under certain conditions.

To exercise any of these rights, users can contact us directly.
