

September 28, 2021

Honorable Joseph R. Biden, Jr.
President of the United States
White House
1600 Pennsylvania Avenue
Washington, DC 20500

Honorable Kamala D. Harris
Vice President of the United States
White House
1600 Pennsylvania Avenue
Washington, DC 20500

Secretary Alejandro Mayorkas
U.S. Department of Homeland Security
3801 Nebraska Avenue NW
Washington D.C. 20016

Honorable Antony Blinken
Secretary of State
U.S. Department of State
2201 C Street, N.W.
Washington, D.C. 20520

Dear President Biden, Vice President Harris, Secretary Mayorkas, and Secretary Blinken:

As 177 faith-based organizations and 1,947 faith leaders and people of faith representing diverse faith communities, we write to you today to express our shock and dismay at the Biden administration's decision to resume deportation and expulsion flights to Haiti without regard for the human consequences posed to the men, women, and children being deported, or concern for the multiple compounding political and environmental crises impacting the Haitian people. Moreover, we are deeply disturbed by the horrible and inhumane treatment of Haitians seeking refuge at the U.S.-Mexico border at the hands of Border Patrol officers. **We call on you to:**

1. **Immediately halt deportation flights through a humanitarian moratorium and release Haitians in immigration detention;**
2. **End Title 42 expulsions and safely resume asylum;**
3. **Ensure that the Customs and Border Protection (CBP) officers responsible for abuses against Haitian migrants are held accountable; and,**
4. **Vigorously pursue all administrative actions to protect Haitians from deportation, such as a TPS redesignation or DED, and explore opportunities to utilize humanitarian parole for Haitian arrivals.**

These are necessary ways that the U.S. can extend a welcome to Haitian migrants fitting of our values. Solely relying on outdated and inhumane enforcement practices is short-sighted and immoral. We also continue to urge that the administration consider measures to address the factors driving forced displacement of Haitians.

The back-to-back disasters of the 7.2 magnitude earthquake that occurred on August 14th, tropical storm Grace, and subsequent widespread landslides have devastated a country already reeling from the political and economic turmoil resulting from the assassination of President Jovenel Moïse only a month before. With a total of 800 thousand people affected, over 2,200 people killed, 12,200 injured, and 130,000 homes destroyed, it is cruel and immoral for the Biden administration to send a message of deterrence by deporting people seeking safety back to those conditions. According to the United Nations Office for the Coordination of Humanitarian Affairs, over 45 percent of the population in Haiti already faces acute food insecurity. The Haitian government and the families of those being deported are not prepared to meet their basic needs or ensure their safety.

The Deferred Enforced Departure (DED) and Temporary Protected Status (TPS) programs were enacted exactly for situations such as this. Employment authorization for current beneficiaries under the 2011 TPS designation for Haiti was automatically extended until at least December 2022.

Additionally, Secretary of Homeland Security Alejandro Mayorkas recently announced that due to the grave conditions in the country, TPS for Haiti would be designated for 18 months effective August 3, 2021. Both decisions represent a recognition by the U.S. government that the conditions are too dire for anyone to be forcibly returned, and yet this decision cruelly excludes those arriving at the U.S.-Mexico border following the 7.2 earthquake.

Given these realities, we call upon the Biden Administration to:

- A) Once again update the continuous presence date to be eligible for TPS in the U.S. to August 14 or later; and,
- B) Issue a DED designation for Haitians in the U.S. because current processing times for TPS applications and Employment Authorization Documents (EAD) application processing are as long as a year. A DED designation would provide immediate protection from deportation.

It does not go unnoticed that Black immigrants are often targets of the [largest mass expulsions from the U.S.](#) Mass migration from Haiti does not occur simply in response to natural disasters - it is closely tied to harmful, racist U.S. and Western foreign policies toward Haiti going back to 1804 when the country was founded by formerly enslaved people who fought for and won their freedom. We must address not only our treatment of Haitian migrants, but also our treatment of Haiti and the Haitian people, and begin to listen to their own solutions for their country's needs, such as the proposals put forward by the civil society-based [Commission for a Haitian Solution to the Crisis](#). The period of 2015-2024 has been named the UN International Decade for People of African Descent, which among other things, is a time to renew the cause to name the colonial and white supremacist roots of destabilized communities. With this, the faith organizations and faith leaders here reaffirm their solidarity and support for all people of African-descent.

Haitian asylum-seekers are not only pursuing what is their legal right. They are also challenging us all to live in full alignment with our religious and spiritual values, which implore us to welcome the stranger and not to turn our back on those in need. Late last month President Biden stated that, "human rights must be at the center of our foreign policy, not the periphery." Yet the expulsion of Haitian immigrants from the U.S. southern border illustrates just the opposite. We must back up bold statements with actions.

We strongly stand by the words of Haitian Bridge Alliance Executive Director, Guerline Josef, who said,

"We are in utter disbelief that the Biden Administration would deport Haitians now. Hours after the 7.2 magnitude earthquake, President Joe Biden released a statement saying that the United States was a 'friend' of Haiti. A 'friend' does not continuously inflict pain on another friend."

The deportation flights must end.

The use of Title 42 to justify those expulsions must end.

The U.S. must renew TPS designation for Haiti to more expansively ensure the safety of those who need it.

We honor the determination, dignity, and resilience of Haitians in the camps under the Del Rio bridge who have journeyed to the U.S. border believing in the promise of safety and opportunity. As people of faith we hear the cry of the forsaken and vulnerable. We answer back, and urge you to join us.

Respectfully,
