Helping Hands

Hospital Equipment Beeping Noises. Hey, you're finally awake! How are you feeling? Who, me? I'm your nurse, feel free to call me El! Oh... you don't realize where you are... well you're in the hospital, sweetie. You were in a bad car accident. Don't you remember? Another driver ran a red light and crashed right into your car door. Yeah, it was pretty bad. The police said that your car had to get towed. **Laugh.** Yea having insurance really pays off.

Even now you can still laugh hmm? You were in pretty rough shape when the ambulance brought you here. **Headpat/Hair Ruffling Noise.** Luckily you still look in good shape. I hope you don't mind me ruffling your hair a bit, we still haven't gotten you completely cleaned up.

Anyway, the doctors told me it'll take some time for you to recover. How long? Well, it could take weeks. Both of your arms are broken; all the way up to your elbows. You've got a few broken fingers on each hand as well, so the casts you have won't allow you to use your hands either. Fortunately, just your leg suffered a fracture, but the doctors said this one will take the longest to heal. That means you'll need to be confined to a bed for a

while. You won't be able to walk without being in pain, but the cast... **Knocking Sound...**
being this stiff won't allow you to move around anyway.

Shhh everything is okay. **Giggle.** Yes, your dog at home is being taken care of. **Giggle.** Out of everything that's happening you're worried about your dog... you really are goofy
Giggle. Well, I guess I'm allowed to let you know since you are the patient...And you were the one to say this.... You were saying something really funny right before you passed out... something on the lines of "I- I need to walk- my dog..."

Giggle. Hey, no need to look so embarrassed. It was honestly nice for some of us to get a laugh... our work can be pretty difficult at times. Don't worry your family either. Your family knows about the accident. We contacted them through your emergency contact and they will be visiting tomorrow again! **Laugh.** Yea the paperwork really paid off. On your first day here, they visited while you were sleeping . You have a really supportive family. It's nice to see. **Giggle** Of course they were here! They were... really worried about you.

So, that's everything. I know it's a lot to take in, but the important thing is that you're alive and you'll make a full recovery! Now then... **Velcro Sound...** we still need to get your blood pressure... the old fashioned way, so I'll need to borrow your bicep for a sec.

Pumping Noise From Blood Pressure Ball. Hmmm... oh.. you got some very nice veiny forearms. **Giggle.** Sorry for the comment, it's pretty common for us nurses to enjoy good

veins when we give shots. You know how it is. **Hiss Air Noise From Blood Pressure Ball.**
Alright, 119 over 70. That's perfect. **Velcro Sound.**

Awww... I know you're in pain, and you just went through a scary accident, but I'm here to make you comfortable! Just think of this as your home for the next few weeks! Yes, honest. Here look **Curtain Sound.** You see the bed right next to you... is empty! Luckily, the patient that was here got discharged the same day of your accident! So you get the whole room to yourself for a while! Feeling better now? **Giggle.**

And you'll be able to have more time with me. That is of course if you ever feel lonely or need someone to talk to! Awww, I'm glad to hear you've been enjoying my company so far. I've also been enjoying yours just as much. I think you're the first patient, I've ever gotten really comfortable with... **Giggle.** Yea usually things are really strict and professional but I feel like I can... be more comfortable with you for some reason...

Giggle. Well of course.. you're charismatic.. A pretty good looking **clearing throat.** And um, who goes out of their way to think about their dog when they're in a crisis. **Laugh.** Hey if you're going to start blushing so will I. You wanted compliments just so you can feel better huh? Well if you wanted to I can also offer hugs as well. **Giggle.** No I don't do this with patients, but you're.. a special case. You got it? Because you're in a case... **Laugh.**
Yeah that was a pretty bad joke, look it's working though you're smiling.

Giggle. Of course you can get a hug still. Here, rest your head on my shoulder: I don't want to accidentally bump into your casts. **Clothes Rustling.** Mhmm... isn't this nice? Trust me, you're in good hands. Everything will be okay. **Hair Rustling Noise.** Don't ever be afraid to ask me for anything, okay? I'll do whatever I can to speed up your recovery.

That being said, there *are* some daily things you won't be able to do on your own. Well, for starters you can't eat on your own. And you also can't shower without at least *some* help. Oh no need to be so flustered. **Giggle.** You really are so cute- I- I meant to say it's completely normal to be shy and it's completely normal for us nurses to help patients with things like this! So don't worry! Are you alright with me helping you shower?

Giggle. Good. That's what I wanted to hear.

C'mon, let me help you off the bed. **Bed Rustling Noises.** Okay, put your arm carefully over my shoulder. **Clothes Rustling.** Perfect. Now walk like you would normally with your right foot and I'll keep you supported on the left side. Ready? **Footstep.** Good!

Footstep. Perfect! **Footstep.** See, this is easy! You're doing such a good job. **Door Opening Sound.** Wa bam! Here's your personal bathroom. **Door Closing Sound.** Pretty big, huh?

The showers are huge and have benches so you can sit for as long as you want!

Okay, next step. We gotta get rid of your hospital gown. Aww c'mon don't be shy. It's perfectly normal. I can't *tell* you how many times I've done this before. There's nothing to be ashamed of. It's not like I've seen you naked already. **Laugh.** Did you change your mind about wanting to shower? Good. I'll just take this off for you. **Clothes Rustling.**

There! The gowns are super easy to take off and put on. There's nothing to be embarrassed about. Lemme turn the water on. **Shower Knob Turning. Water Running Noises.**

Okay, the last thing I have to do is wrap your casts though so they don't get wet. **Plastic Wrapping Noises.** Almost done! **Plastic Wrapping Noises.** There you go, perfect! Now you can get in. Does the water feel okay? A little warmer? How's that? Good? Okay, great! Oh you don't have to worry about my outfit getting wet, it will dry later on. Unless you don't mind me stripping as well-oh! oh you don't? I meant it as a joke... but... I guess if you don't mind. Umm... if you can look the other way please- O- of course I'm embarrassed... I- I've never done this with a patient before. **Clothes Rustles.**

O- okay now you can look... O- of course I still have some of clothes on... I have an extra pair of these so I can change into those afterwards! Did you think I'd get completely naked... I sometimes wonder what's going on in your head. But, maybe it is a good thing I don't know. **Laugh.** I'm joking.

Clothes Rustling. Okay, I'll start with your back. **Shampoo Noises. Lathering Skin Noises.** Does this feel good? Okay. Let me know if I'm pressing too hard, I don't want to hit a tender spot. You got a lot of bumps and bruises after that accident. **Lathering Skin Noises.** Is it okay if I...go in between your legs now? Why are you looking at me like that? What are you thinking hmm? Okay **giggle...** this may tickle a bit... let me just move to the front. Mhmm... the water feels nice, doesn't it? **Skin Lathering Noises.** Your muscles

they are so toned... do you work out? **Giggle**. Really!? You don't! That's so surprising. Is it alright if I move over here? I think this place needs to be cleaned up the most since it probably is your favorite part of your body...

—NSFW—

Skin Lathering Noises. Y- you want me to be more clear of what I'm asking- I'll only say it since it's my job to be professional and always get consent from my patients... W- will it be alright if I...wash your cock...? WOW so you did hear me say it the first time... you jerk. Keep in mind I'm not the one in a cast right now... so you better treat me well.

Gulp. Stroking Noises. Oh wow... sorry.. I got lost in thought. Y- your cock is really big- Sorry! I didn't mean to say that out loud! **Giggle**. Y-you want me to continue?! **Giggle**. In your dreams... if you think about it I'm literally stroking your ego right now. **Laugh**. Hey! What do you mean.. it was a pretty good joke! Okay?... Okay yea it was bad.

Oh... looks like someone is getting excited. No need to hide it. Of course you're going to get hard if someone touches your c- cock... O- of course I can say the word cock! It's just that... this is my uh first time doing this with a patient.. well yea I do see genitals here and there but seeing and touching... Those are two different things...

Is it alright if I clean it.. really thoroughly? Oh.. what do I mean? Well instead of telling you I can show you... just let me know if you ever want me to stop. But I'll make it so that

you never ask for that though. **Giggle.** Just to make sure we get the whole surface I'll get it all nice and hard first... is it alright if I use my mouth? Good. I've been drooling for this ever since I saw it... **Slurping Noises.** Mmmm it tastes very sweet. I can still taste the musk.. I'm happy I haven't washed it all off... Mmm I can barely fit it all in my mouth.. lets see how far I can take it down mmmm yea...

All right....Your cock is now all nice and hard... okay.. I'll start from just the tip and make sure it's all cleaned by rubbing all of the soap and water around several times... **Skin Lathering Noises.** Your cock is twitching. Does it wanna go back in my mouth already? Well.... if you don't cum while I play with your cock with my hands I'll let you cum in my mouth... How does that sound? **Giggle.** Good. I knew right from when I saw you... I knew you were a pervert. What do you mean...I know a pervert when I see one. And you've been on my mind ever since I saw you. **Giggle.**

It seems like you're doing well... Oh what is this? I can't forget about your balls either, right? **Giggle.** They seem so heavy. It seems like it's been a while since you last jerked off hmm? I'm glad I can be your first in a while... That means that this will feel that much better. Mhmm.

Stroking Noises. Now I'm going to stroke your whole cock while I play with your balls.. let's see how long you can hold it in... Me!? Teasing you!? Never.. it's not like I'm doing payback for all the times you made me feel embarrassed.. **Giggle.** Hey you got yourself into this mess okay?

If anything I don't think I can hold back myself... I really wanna taste your cock again. it was so delicious- Mfmmp Y- you can't just shove your cock down my throat- Mfmmp ahhh mmm ahhh... n- no keep going...ya!

Remember, I'm here to comfort you. In any. Way possible. **Sucking Noises. Moaning.** Ahh, fuck. This thing just doubled in size. You're so huge. **Sucking Noises.** What's that? You're already close? That's okay. Don't hold back. Give me everything you've got. **Moaning. Swallowing Noises. Panting.** Wow, you really were pent up. **Giggle.** Well, now we know you really are clean! I can't wait to have more fun with you.

Time Passes.

Bed Creaking. Wet Sound. Oh yes! I know it's been a week since you've been here and we've been fucking every single day... I'm surprised we haven't gotten caught yet. Not uh uh... lay back and relax. Remember you're still recovering.. and it's my job to make sure you're fully healed... **Giggle.** So just let me. **Bed Rustling Noises.** Do. All. **Kissing Noise.** The Work.

Wet Sound. Moaning. God, your thing always feels so big inside me. I can never get enough of your cock... do you know how many panties a day I have to change because of how wet I get... Thinking about your cock ramming inside of me... just like how it is now...

Fuck! Oh, you're thick. **Wet Noises**. Ahh yes my pussy is taking your cock all inside of me.. We fucked so many times that the shape of your cock is engraved in my pussy **Moaning**. Yes my pussy slut... Ahh, it feels like you're going to break me. **Moaning**. **Panting**. I just love your dick so much,I- I can't help it. My shift is actually over... did you wanna go at it all night? Ya?

Kisses. **Door Opens Noise**. Shhh I think they just brought in a new patient... they're laying them down on the other bed. Let's not be too loud- **More Intense Wet Noises**. **More Intense Bed Creaking Noises**. Ahhh- w- wait you're not allowed to fuck me- underneath like that- W- what if they hear us- I ahhh mfmp- Ahhh fuck this feels so ahhh so... good.

You're so so bad... you're a fuckin horny degenerate aren't you- Can't help but fuck me when everyone will know. Ahhh why did your cock get bigger after I said that- mmfm mm ahhh yes keep going- **Door Closes**. Phew the doctor left- It seems like the patient is sleeping. I think their knocked out cold- let's hope they don't wake up- ahhh w- why are you fucking me harder after I said that-

Cumming Noises. Fuck! That was a lot. **Moaning.** I can feel you pumping deep inside me still. Look! It's just oozing out of my pussy. Let me just shove it back with my fingers so I can keep it inside. **Wet Noise. Giggle.**

Kissing Noises. Aww you're so cute, don't worry about the other patient. You'll be the only special patient okay? And we'll still get to play with each other everyday... we can just do longer shower sessions if you know what I mean **Giggle. Kissing Noises.** Don't forget we have the whole night for ourselves. Are you ready for some more?
