

**[thunderstorm and fireplace fades in // grandfather clock chimes // door opens]** It's time, darling. I've been looking forward to this all day long. Knowing you were here was the only thing that got me through today. I'm starting to develop a soft spot for you, I think. **[chuckle // footsteps]** Are you starting to look forward to our little sessions? Coming all the way up here to devour you. **[shuffle // chuckle]** You fell back so easily this time. Have you given up on playing hard to get? You know you will give me what I need from you. You enjoy the feeling of my fangs piercing your skin too much to ever deny me. You love how I feel when I loom over you on the couch like this. Trapped between my arms, nowhere to hide. Every part of me focused entirely on you. **[some kisses]** You know how this goes, darling. You know what I want from you. The only thing you can offer me. It's why you are here with me and not out there with the others. Give me what I need, darling. **[kiss]** That's cute but not it. We both know what I want, you are just playing coy. Having fun teasing me, darling?...

...Tch, I didn't come here to romance you. I want something sweeter than your lips and tongue in my mouth. There is something more intimate that I crave from you. I can hear it pumping away in your chest. Bum bum. Bum bum. Do you feel it beating in your chest everytime I enter the room? Does your heart rate pick up when you hear me unlock the heavy door? It gets you all flustered, you start to feel all tingly, don't you?...Come on, don't lie to me. We both know you enjoy our little game. You like being made to fluster like this. Your blood always tastes so much better when I play with you a bit beforehand. Gets flooded with endorphins or adrenaline, I'm not sure. I just know that when I drag this out, make you ask to be bitten, it tastes better.

Kiss along your neck, fangs grazing against your skin, threatening to draw just a little drop of blood. It always feels so good the moment they sink in, doesn't it? Every time it is a new feeling of euphoria. Alights your every nerve ending as I drink more and more of you. I think a part of you enjoys how much you affect me. How badly I crave you. Nothing satiates my hunger quite like you and your blood. Like a scarlet ambrosia that slides down my throat and fills me up perfectly. It doesn't matter if I go out hunting and taste someone else, I always come back to you. Drawn to the perfect flavor of your blood. Nothing can compare to how you taste and feel, darling. In all of my years of living, and it's been quite a few, you taste the absolute best. You taste divine, darling. **[kiss]** That's why I can't let you go...I don't think you want to go though... Why would you want to leave when you can have my attention anytime you want?... You like having a vampire wrapped around your finger, don't you?...As much as you affect me, you can't deny the effect I have on you, can you, darling?

...Bold to do so when you are already in a state such as this. A pathetic little mess and my teeth haven't even pierced your skin nor have I touched you. All I've done is trap you underneath me and take some kisses and yet you are already so flustered. Are you really going to pretend that I don't have any effect on you, my dove?...If you insist then I can leave. I don't mind leaving you alone and finding someone else to dine on. They won't be as delicious but they will be better behaved. They'll get the pleasure of my bite on their neck, something to be proud of, instead of you. Now, are you going to behave yourself for me, darling, and be honest with how I make you feel? Or should I put my attention elsewhere, into something more worthwhile...

...How quickly your tune changes when you are threatened to not have my attention anymore. Despite acting so fierce, you fold so quickly. It's adorable how you think you have any leverage over me just because I love the taste of your blood. You can threaten to take it away all you want, after a few days you'll be begging to be bitten. You love how it feels too much. The intimacy of being held against my body, the euphoria from having the fangs penetrate the thin flesh of your neck, the way your warm blood fills my mouth, and we both know you find it attractive when I'm covered in your blood breathing heavily. You might deny it to my face but we both know where you can't lie. Even now, the thought of me covered in your blood is getting you all excited, isn't it?

...Already acting pathetic for me, my dove? I didn't realize how easy it would be to get you to fold like this. All that tough resolve goes away the second you stop thinking with your brain. **[chuckle]** What do you want, my darling?...Yeah? What else?...Do you think you deserve to get what you want? **[kiss]** Because I don't think you do...I think I need to draw this out a bit longer...Make sure those eyes fill up with tears from how desperate you are. You've always been so pretty when you cry, my dove. Like the first time I drank your blood...You saw me late one night. I was walking not paying attention and you were looking at your phone and we bumped into each other. When you fell, you scraped your knee, there was blood, and I caught a scent of it helping you up. I told you my apartment was right upstairs, which wasn't a lie, and I helped you get cleaned up. You saw my fangs though. You weren't afraid. You were intrigued. Wanted to know how it feels. On the TV or in the books, it was always described differently. You were just curious. I had the scent of your blood in my nose and you were practically begging to be bit. I couldn't deny myself. Not when my meal wants to be fed upon. I sank my teeth into your neck, right here, there's still a scar, and I tasted ambrosia for the first time in my life. In the morning when you wanted to leave, I asked you to stay. And now, here we are. Months later and you still insist on playing cat and mouse with me knowing you'll always be caught.

**[kiss]** Trapped underneath my cold body. With my preternatural strength, there is nowhere for you to go or escape to. And why would you want to when you have everything you could ever want right in front of you? **[more kissing]** You know, I think I have a better way of getting what I want from you, darling. A way that is a little more fun for the both of us. **[shuffling]** It's okay, my dove. Let me help.

**[REDDIT]**

**[shuffling]** Shhh, I know my touch is cold but it'll warm up quickly between your thighs. You are just radiating heat right now. **[wet noises]** Just look at how wet you are for me, darling. Is that why you started to behave yourself and stop challenging me? Because you know that Good girls don't get to cum nor do they get fed upon. **[chuckle]** Absolutely soaking for me, my dove. I love sliding my hand between your thighs and finding you so wet. Makes it so much easier to just slide a finger or two inside you. Yeah, that's it, darling. Doing so good for me. On days that I feed from you, I give you orgasm after orgasm because it makes your blood that much more delicious. You love feeding days with me because you get spoiled in orgasms, don't you? Circling your clit, just how you like it. Fingers plunging in and out of your wet hole. Not too fast or too rough, just a nice steady pace to get you there.

**[kiss]** That's it, my dove. Taking it so well. That's a good girl. As soon as an orgasm is in place, I find you behaving yourself. All I have to do is fuck the brattiness away. You don't want to tease me when I'm two fingers deep and playing with your clit, do you? **[chuckle]** Isn't this what you wanted? To be fucked like this, on your back, legs spread, offering every part of you to me. That's what I like to see. You look so gorgeous like this, darling. You don't realize it but every time I get the privilege to fuck you like this, I take in every single gasp, moan, facial expression, and commit them to memory. You look your prettiest when you are being fucked by me. So wet and warm around my fingers.

**[kiss]** I'm imagining how you are going to taste after this. Your saccharine blood filling my mouth, made all the better by your orgasm. You are being very good for me. Making it hard to resist biting you. I can hear your heartbeat picking up the more I play with your clit and pussy. It's getting faster, all I can focus on. Just like how you can only think about my fingers fucking you. Touching you just how you like while you look up at me through those eyelashes. Such a good girl, for me. I love you, darling. No one else would let me take them apart like this.

**[kiss]** You like when I kiss you so sweetly despite touching you so lewdly? A chaste kiss to the lips while I'm knuckle deep inside you. Taking care of you, just how you need, darling. Keep being good for me and you won't have to wait much longer, my dove. You don't need permission to cum this time. You orgasm whenever you need it. All you have to do is melt into my touch and let me worship you how you deserve, my dove. Take care of you just how you take care of me. Damn, I can't get over how wet you are. The sounds your pussy is making as I finger fuck you, I didn't think they were possible outside of a hentai. I love my lewd darling. So horny and desperate for me. The spitting image of perfection incarnate. Fuck, having you so eager beneath me, it's getting me wet too. **[chuckle]** Or is it just because I can hear the blood pumping through your veins, darling?

...Such a good girl for me. Love how you feel underneath me, making all those cute noises. Yeah, that's it, darling. Let my hand do all the work for you. You just have to lay there with your thighs spread, taking it for me. My hand stroking your clit nice and steady, it feels good? Especially when combined with how my fingers are moving, curling inside you, scissoring but the focus stays on your clit. I know, it feels so amazing. You are just squirming underneath me like you can't take anymore but you want more. That's how it always is before you orgasm, isn't it, my dove? You want more and need more but your hips keep bucking trying to find more friction and to stop it. You are so fucking pretty, my dove. I'm so lucky we met that night. I'm so lucky you wanted to stay with me. I am the luckiest vampire in the world to have a girlfriend who wants to be my personal blood bag.

Your blood is thumping underneath my touch like it knows what is next. It's excited to enter my mouth and fill me up. I love when I have your blood pumping through my veins. No other blood makes me feel as good as yours. I love walking around all night knowing that you are inside me. **[kiss]** That's my girl. You are being so good for me, I'm so proud of you, darling. You have been taking everything I give you and behaving yourself. I'm so glad that you decided to be a good girl on feeding day so I could treat you gently and cherish your body like it deserves. Take you apart nice and slowly before I feed from you. Maybe this time, I'll bite your thigh. Sink to my knees, kissing and nipping up your inner thighs. Just before I get to your pussy, I'll sink my teeth and leave a scar on your inner thigh. Two puncture wounds in the shape of my teeth. And once I'm finished feeding, I'll get to make it all better by eating you out and tasting another side of you. It doesn't matter what I'm tasting from you, as long as it is from you, then it is the best thing in the world and I can never get enough of it.

**[kiss]** But first, you need to cum like this. I go down on you until I've fed from you and I can't feed from you until you orgasm first. It's just my personal preference. To give you an orgasmic bite after orgasm. Make you even more limp and pliant while I spread your thighs and taste my other reward. I know you love the ritual and worship on feeding days. You deserve it for being such a good girl. Are you getting close, my dove? You are starting to breathe erratically. It's okay to cum. You can orgasm whenever you need. Good girls get to cum whenever they need to and you were a good girl for me today. Only putting up a slight attitude until you realized what kind of feeding day it was. Then you couldn't resist yourself. Like to be taken care of like this. When the whole world melts away and it is just you and me. All of my attention on you and watching you, all of my focus on making you cum.

Fuck, look at you. I love you so much, my dove. The way you moan when my fingers are inside you, the way you squirm as I play with your clit, how your sensitive body responds to my touch. Such a desperate little display of your lust for me. I love it and I love you. **[kiss]** Such a good girl for me. **[kiss]** Making me so proud. Do you think you can cum for me, darling? I know you can do it. I want to feel you cum on my fingers so I can lick you off them before I taste your precious blood. Cum for me, darling. That's my girl, just like that, let me take you apart my adorably desperate dove, that's a good girl. So fucking amazing for me. **[kiss]** Cumming, just like that for me.

**[licking]** You taste so fucking good, darling. It's like an appetizer before the main course.

**[chuckle]** No, no, no, darling, you can't do that just yet. Your first orgasm was just a little tease. Now it is time for the main course.

**[PATREON]**

**[adlib kissing up thigh // biting // listener orgasm while drinking // back to some licking and kissing up // oral // listener orgasms a final time // shuffling up to lips]**

Taste yourself, my dove. **[kissing]** Your pussy mixed with your blood, isn't it just divine, darling?...Come here. You've had a big day, the least I could do is let you rest for a bit. **[shuffling]** Thatta girl, right here into my arms. **[kiss]** I love you so much, you know that?...Well it's true. I'm so lucky we ran into each other and you had a curiosity about vampires instead of being afraid. What a wonderful chance of fate that I would meet someone as lovely as you by accident?

**[kiss]** If you need to, close your eyes, my dove. I'll be here when you wake up, after all, feeding night has only just begun.
