

Brain Bowl

By Natalie Ruggles

December 2024

Every year the math club puts on two Brain Bowls, one in the winter and one in the spring which is scheduled for March 3, 2025, and then there is a Super Brain Bowl which is scheduled for May 1, 2025. The Super Brain Bowl is when the winners of the winter and spring Brain Bowl go against each other. Some of the students just do the Brain Bowl to dress up and have fun, and there are some do it to win and get very competitive about the Brain Bowl. The students who don't do the Brain Bowl still enjoy sitting in the crowd and trying to answer some of the questions in their head. The winner of the 2024 Winter Brain Bowl was the team of JP Janes, Reid Loop, and Isaiah Powers. I asked JP how many times he had won the Brain Bowl and he said that he and Reid have both won twice, and he was pretty sure that Isaiah has won twice and also won a Super Brain Bowl.

Isaiah Powers, Reid Loop, J.P. Janes
