435 Porto Alegre St, Indianapolis, IN, 46202 / 463-215-9302 / dbyeon@iu.edu

Education

Bachelor of Science in Neuroscience

Indiana University Indianapolis (IUPUI), IN

- Pre-Professional Dentistry

Experience

Clinical Assistant

Life-Health Sciences Internship Program at IU Indianapolis (August 2023 - Present)

- Collaborating with medical professionals in interprofessional education clinics, including the Buprenorphine clinic and CoPAC clinic, to enhance the quality of patient care through a multidisciplinary approach.
- Assisting in the facilitation of educational programs such as the interprofessional education (IPE) projects within the IPE Center and InCARES ECHO (Extension of Community Healthcare Outcomes) and resources for healthcare professionals.
- Working closely with Dr. April Newton, Mr. Alex Buchanan, and the clinical teams, I have gained invaluable experience in a collaborative and interdisciplinary healthcare setting, contributing to a culture of continuous learning and improvement

Clinical Research Assistant

OB-GYN Indiana University School of Medicine (May 2023 - Present)

- Guiding patients through the informed consent process for their participation in research studies, I ensure that patients have a thorough understanding of the study objectives and their role in advancing medical science.
- Leveraging my fluency in Spanish translation, I help bridge the language gap for Hispanic patients, fostering clear communication and ensuring their full comprehension of medical research to create a culturally sensitive and inclusive environment that enhances patient engagement.
- I help assist in the collection and processing of biological samples and clinical data, and maintain organized and accurate research records, which includes patient information, consent documentation, and data collection.

Translator/ Assistant

4 Christ Mission (Summer 2019), Iglesia Coreana Presbiteriana de Guatemala (2019-2021)

- Assessed the various health and social needs of the San Telmo community in Mexico.
- Interpreted/translated the Spanish language in order for people to receive the care that they needed (medical, technological, financial).

- Helped meet the health/social needs in impoverished communities in both Mexico and Guatemala through education in basic health practices, assistance in finding jobs, and basic humanitarian aid (food, resources).

Skills

- **Interprofessional Collaboration:** Proficient in collaborating with medical professionals and clinical teams to enhance patient care through a multidisciplinary approach, demonstrated through work at the Buprenorphine clinic, CoPAC clinic, and the Interprofessional Education Center.
- **Multilingual Communication:** Fluent in Spanish, Korean, and English, with the ability to bridge language barriers to ensure clear communication and understanding, particularly with Hispanic patients, to enhance patient engagement in medical research.
- **Community Outreach:** Demonstrated the ability to assess health and social needs within diverse communities, particularly in Mexico and Guatemala. Skilled in interpreting and translating to bridge language gaps and facilitate the delivery of necessary services, including medical, technological, financial, and humanitarian aid.
- **Team Collaboration:** Proven ability to work closely with healthcare professionals, clinical teams, and mentors, contributing to a culture of continuous learning, improvement, and teamwork in a collaborative and interdisciplinary healthcare setting.
