- KSOB offers the freshest and widest variety of oysters! On any given day, we offer 10+ varieties, which we get no more than 24 hours out of water from the East Coast, and no more than 48 hours out of water from the West Coast.
- KSOB is a sustainably minded business. Oysters clean the Chesapeake Bay and provide habitats for other species! That's why we are proud supporters of the Oyster Recovery Project and The Virginia Oyster Shell Recycling Program! Eating oysters and recycling their shells supports oyster reef restoration in the Bay.
