

CERTIFICATION ACADEMY *featuring* "Google"

The Certification Academy featuring "Google" is a professional development opportunity which equips educators to become Google Education experts. The certification academy will get you started on the process for becoming a Google for Education Certified Trainer.

Note: This short course is designed to get you started on becoming a Google for Education Certified Trainer. Completing this process will require additional work, including taking a series of five exams at a total cost of \$75. Complete details are [available here](#).

Learning outcomes for this workshop include:

- Understanding the certification levels in the Google Certification program.
- Understanding the certification process.
- Tips and suggestions for taking your exams
- Understanding the core features of Google Apps and core components of Chromebooks and Android tablets
- Preparing to create a personal case-study and an application video
