lawrence: i was on retreat in brooklyn (thx cam and damani for the space!) and i was OBSESSED with the song hypotheticals by lake street dive. i must have listened to it on repeat for 4 days in a row. that was when i realized that i thought lake street dive was a different band.

Nadav: amber mark's album came out and we were all pretty obsessed with it right away. And pink sweat\$ album came out the same day and it was on repeat!

Feb

Nadav: Ibeyi starts releasing their newbies with Sister 2 Sister! It's on multiple times daily. As are some songs and albums I'm coming back to including Yasmin Williams' Urban Driftwood, J. Cole and 6lack's Pretty Little Liars, and more.

Nadav: this is an epic month! the month three of my favorite (and most played of 2022) albums come out. MICHELLE's after dinner we talk dreams (a l'men favorite!!), Rex Orange County's Who Cares? and LOONY's soft thing.
