

Privacy Policy for MobilKoru: Anti-Theft Alarm

****Last updated:**** January 31, 2026

MobilKoru ("we," "our," or "us") is committed to protecting your privacy. This Privacy Policy explains how our application uses your data.

****1. Camera Permission****

Our app uses the camera permission to function as an anti-theft security system. The camera is used solely to detect motion or capture an image of the intruder when the alarm is triggered. We do not record or transmit video without your knowledge.

****2. Foreground Service & Media****

We use Foreground Services to ensure the alarm sounds loudly and continuously even if the screen is locked or the app is in the background. This is essential for the anti-theft functionality.

****3. Advertising (AdMob)****

This app uses Google AdMob to display advertisements. AdMob may collect data and use cookies to serve personalized ads.

****4. Data Security****

We do not sell your personal data to third parties. Any data processed is for the functionality of the app and advertising purposes.

****5. Contact Us****

If you have any questions about this Privacy Policy, please contact us via the developer email provided on the Google Play Store.
