

# Commissioning TOS

## Commissioning Terms of Service

v1.2.0

I, mDragon33, retain the right to decline any commission for any reason. All commissions are for personal, non-commercial use unless otherwise agreed upon, and I retain the right to display finished artwork in my portfolio and on social media. I retain copyright of the artwork I create, but I will **not** claim the intellectual property of the character depicted in it (your characters remain yours), or further profit commercially from it after the commission.

### Final Product

The final product will be a digital file of the commissioned artwork, transferred via email or the platform used to take the commission.

### Payment

All prices are in USD, and payment is accepted via Paypal. Full payment is required upfront before I begin, unless we agree on a 50/50 split (half before, half after sketch approval).

### Process and Revisions

I will provide a sketch for approval before moving forward. I will allow revisions during the sketch phase, but major changes (pose, outfit redesign, species change, etc) after the approval of the sketch will incur extra charges to account for the time spent adjusting the commission.

During the sketching phase I may send different options for the sketch and design. During this time period before the sketch is finalized, feel free to bring up any concerns with the sketch, revisions, etc. so I can address them as quickly as possible. I may be unable to accommodate changes made very late in the design process as it would effectively require redoing the entire piece, but I will let you know if this is a concern. Also feel free to send specific references you would like me to use (if you have a very specific hairstyle in mind, a specific species, etc), as long as you aren't asking me to trace or otherwise entirely copy other works.

Turnaround time is generally within a week, although very likely much faster. I will update you on the progress, and you can request updates.

### Usage and Rights

You **may**:

- Use the art for icons, banners, or personal profiles (credit is appreciated)
- Print or display it for personal use

You **may not**:

- Remove my signature
- Claim the artwork as your own
- Use the artwork for commercial purposes (merch, prints, NFTs, reselling, branding, or training AI)

## Refunds

Full refunds are only available before work begins. If I've already started your commission, a partial refund may be given depending on how far along I am. No refunds will be issued after the art is completed.

## Will / Won't Draw

**Important note:** as an artist who is constantly learning, there are some things I am better at drawing than others. If you ask me for something in particular that I know I am less skilled at drawing, I will let you know beforehand. Please also be aware that I use posing apps to help with anatomy and posing- if you would prefer that I not use a posing app during my process, please let me know before I begin the commission.

### Will Draw

- Furries / anthros
- Ferals, animals, mythical creatures
- Humans / humanoids
- Character designs (including OCs, human, monster, or otherwise, for RPGs and the like)
- Gore on a case-by-case basis- if you request anything more than mild gore (as determined by me), **you must be 18+.**

### Will Not Draw

- NSFW or overly sexualized content (this includes chainmail bikinis and other heavily fetishized armor designs unless it is exceptionally relevant to the character)
- Fetish art
- Hateful or offensive content (including but not limited to hate symbols, vulgar language, and offensive stereotypes)
- Depictions of exceptionally disturbing violent acts
- Depictions of self-harm

### Things I Am Not Great At Drawing

These are things that I'm not great at drawing. You can still commission me for them, but it may take longer, and I may charge a little extra if it takes a very long time, since it may take more revisions for me to draw it at a quality I am comfortable with selling.

- Complex mecha / detailed machinery
- Complicated backgrounds
- Overly cartoonish styles / chibi styles

### Things I Really Like Drawing

These are the things I really like drawing, and am a lot better at.

- Scalies, including feathered dinosaurs
- Mythical creatures
- Ferals, especially designs based on mythical creatures and dinosaurs

## Pricing Structure

Prices are negotiable to an extent, depending on how difficult the character is to draw.

| Type     | Flat Color | Shaded |
|----------|------------|--------|
| Headshot | \$20       | \$30   |
| Halfbody | \$25       | \$40   |
| Fullbody | \$30       | \$50   |

By default the background will be relatively simple, but not plain white unless you specifically request it. For instance, a color gradient that matches the color scheme, basic patterning, etc. I can also provide the commission with a transparent background (let me know beforehand if you would like this, as it may require some planning beforehand). I can also provide any combination of those.

## Add-Ons

Add-ons are negotiable, especially the complex design fee. Most commissions are unlikely to incur this fee, it's mostly reserved for designs that will take a very long time to draw and complete. Backgrounds incur a larger fee because they take an especially long time to complete, potentially longer than the character itself depending on complexity.

**Backgrounds:** If you request a background, I will also provide a version without the background, as well as a transparent background.

| Add-On                                                                                                                                      | Potential Price Change           |
|---------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|
| Custom Design<br><i>Extra charge due to the extra time required to make sure a custom design fits your specifications</i>                   | +\$5-20                          |
| Extra Character                                                                                                                             | +70-90% of base price            |
| Complex Design Fee<br><i>For exceptionally complex characters- heavy patterning, overly complicated armor or anatomy.</i>                   | +\$10-20                         |
| Shadow Background<br><i>A "shadow background" is what you see in my pricing drawing- a simple background with transparent black shapes.</i> | +\$10-20 depending on complexity |
| Non-Default Background / Scene                                                                                                              | +\$20-40 depending on complexity |

### Basic Reference Sheets

This option is intended to be available for either customs in which you want a more detailed color reference in addition to the design, or a basic reference sheet for existing characters. This package comes with:

- The fullbody design on a shadow background
- A close-up view of the eye details
- Annotations and color swatches
- A fully rendered *and* unrendered version of the reference sheet

The base price for a basic reference sheet is \$75, plus \$15 if the design is a custom with no existing art. Complex design fees may also apply in some cases but will not exceed \$10.

### Custom Reference Sheets

Custom reference sheets *may be available* upon request. **Pricing is dependent on the individual constituents of the reference sheet** (as defined under the basic Pricing Structure categories), plus any add-ons or fees, as noted in the pricing structure below:

- \$25 base fee (covers color swatches and annotation time)
- + Sum of constituent views
- + Add-ons such as shadow background
- + \$5-10 / 15-20 (rendered / unrendered) per additional object (eyeshots, detail close-ups, items, etc)

If you purchase a reference sheet with the character / objects rendered, I will also provide an unrendered version.

### Contact Information and Socials

**Toyhouse:** @mDragon33 (<https://toyhou.se/mDragon33>)

**Instagram:** @mdragon33\_does\_art

**Discord:** @mdragon33

- Please do not send friend requests on Discord when you are asking for a commission! This is a tactic commonly used by scammers, and *I don't want to mistake any legitimate commission requests for scam attempts*. Some small talk is fine, but try to make it clear relatively quickly that you're asking for a commission so that I can reserve your spot. :)

# Adoptables TOS

## Adoptables Terms of Service

v1.1.0

### Final Product

The final product will be transferral of the character on Toyhou.se if the client has such, or otherwise transferral of the unwatermarked digital files for the adopt.

### What You Get

- Full rights to the character design for personal use. You may:
  - Rename, redesign, or alter the character and their lore
  - Use the character in roleplays, stories, and personal projects
  - Commission other artists to draw them
  - Trade or gift (but not resell, unless explicitly specified) the character, with proper credit to me as the original designer

### Restrictions

- You **may not** claim the original design or art as your own creation
- You **may not** remove my signature or watermark from the artwork
- You **may not** use the character for commercial purposes (e.g., merchandise, games, comics for sale, etc) **unless we agree on a commercial license.**

### Artist Rights

I retain the right to display the adoptable artwork in my portfolio, on social media, and in adoptable galleries, even after it has been sold, and to be credited as the original designer of the character. I will not profit from the character again by reselling it or exploiting it monetarily in any way.

### Commercial Use

If you would like to use the design for commercial purposes, please contact me first. A commercial rights fee will apply (typically 2-3x the base price, although it is negotiable).

### Contact Information and Socials

# Version Control

## Update History

(8/24/2025) Commissioning v1.1

- Updated pricing structure to correct underpricing
  - +\$10 increase to base prices under Pricing Structure
  - General price increases under Add-Ons to more accurately reflect the changes in time investment
  - Added details for custom and basic reference sheets using the new pricing structure as a guide

(8/29/2025) Commissioning v1.2 / Adoptables v 1/1

- Added contact information and socials
- Small edits to Commissioning to make clear stance on commissions involving gore
- Added Contact Information tab
