- This Relax Seating Conversation Anim Set provides a diverse range of motion-captured animations tailored for seated character interactions. The set includes idle animations for natural pauses, talking sequences for dialogue, expressive gestures, and a variety of emotional responses like funny and angry reactions.
- Perfect for games, simulations or narrative-driven scenes, these animations add depth to casual conversations or intense exchanges while characters are seated. With smooth transitions and lifelike movements, this set enhances storytelling by bringing realistic emotional and social dynamics to seated interactions.
