NEWS from the Secondary School

Dear TCIS Community,

Last week we had a beautiful Wai Kru Ceremony. Wai Kru is a Thai ceremony honoring teachers. Students show their respect and show their gratitude for all the hard work their teachers do. The Wai Kru ceremony is held near the beginning of every school year. This year, the Thai Department held the ceremony virtually. This ceremony is very important in Thai culture and it shows student's gratitude for their teachers. Our TCIS Thai Department, led by Kru Rung, did a beautiful job with the virtual ceremony this year. All members of the Thai Department participated and there were groups from each division that performed and made videos that were selected to be a part of the

ceremony. Thank you Kru Rung, and the Thai Department, for all you do to make the TCIS an amazing place for students and for teachers. Please be sure to check out the beautiful collage of photos below.

Please be informed that the Parent Teacher Conference will be held on November 12 via Zoom only from 7.30am to 3.00pm. You may call the registrar or you may call or email Ms. Note or Ms. Ooy to book the time.

Grade 9-12 Secretary: Ms. Note's email is note@tcis.ac.th

News from the Secondary School College Admissions Counselor

Hello Parents!

This Friday, TCIS is having Parent-Teacher conferences. PTC's are an excellent way to learn about your child's progress in their classes thus far. So, this week I would like to provide some tips so that you can make the most out of your meetings on Friday.

- 1) Remember that the conference is a two-way conversation. This means that both the teacher and the parent should both talk *and* listen. This is your opportunity to ask about your child's progress in school. Ask if you can see data about your child such as their attendance, grades on assignments and tests (these of course can also be viewed any time via PlusPortals). Ask if your child is meeting the expectations and standards of their teacher. This is also a great chance for you to tell the teacher about what your child is like at home. What are their study habits? What are their interests outside of the classroom? The more your child's teacher knows about them, the better they can help and teach your child.
- 2) Focus on learning. Sit down with your child and look at their PlusPortals before your meeting. Come to the conference with questions about how your child can do better or continue improving.
- 3) Remember that everyone wants your child to succeed. Listen to the feedback and think about the areas the teacher suggests that your child can improve. Be prepared by thinking about some of your child's strengths and growth areas beforehand. School is about improvement and constant growth, so don't be worried if the teacher has suggestions on how your child can improve. Everyone has areas of strength and areas they can improve so take the feedback to heart and work with your child to improve in the areas suggested by their teacher.
- 4) Ask to see your child's work and discuss the teacher's grading policies. Are they clear? Does your child understand how they're being assessed?
- 5) Discuss ways that you can support learning at home. Checking PlusPortals regularly with your child is a great first step and can help keep your child on track and on top of their assignments.

I will also be available during PTC's if you wish to talk with me about anything that is concerning you. Or if you'd like to discuss your child's high school plans (ie. what courses they should be taking) or their

college plans, please let me know. As always, if there's anything I can do to help support your child with their classes, or with their college planning, please let me know. Have a great week!

Regards,

Jeff Chelin

G5 Technology & PE Schedule Change

Dear G5 Students and Parents,

Education is a dynamic field in which changes and constant striving for improvement should be a habit. This is even more true in the current situation, which requires us to adapt quickly to rapidly changing circumstances. At TCIS we embrace that culture and take pride in a team of teachers that think outside the box to find solutions and improvements for your children's education, development and well-being.

In that regard, we are happy to announce that the Secondary School Admin team has been working with the Technology and Physical Education departments in order to implement a change in the schedule for these two subjects that, although very small in nature, will improve teaching and learning by a great deal.

As you know, the above mentioned subjects are scheduled for Grade 5 on day 1, with a duration of 40 minutes for each class, on the first block of the day. We have realised that the actual effective learning time in those two subjects could be greatly increased if, instead of students receiving those two classes for 40 minutes every Day 1, they receive only one of those classes for the whole 80 minutes one day, and the other class for the whole 80 minutes the following day.

Although this means that the frequency of those subjects will be decreased, the benefits greatly outweigh the current structure. These are some of them:

- Total elimination of transition time needed between the classes.
- Reduction of time dedicated to taking attendance by 50%.
- Reduction of time used for sanitizing equipment by 50%.
- Longer periods of actual teaching time, that will allow for the development of more advanced and complex projects in Technology, or a more complete sequence of the learning process in PE.

For all these reasons, we will proceed with the change starting next (Tuesday November 9th) following the attached calendar. We will share the calendar for Jan-Feb, and subsequent two-month periods, in due time.

What this means for your child:

On Day 1, instead of having both Technology and PE on the first block, for 40 minutes each, they will have only one of those subjects for 80 minutes, and then the other subject for 80 minutes on the following Day 1.

We are sure that this will be a great improvement for those two subjects, that students and teachers will be able to use their time much more efficiently, and that as a result there will be improved learning and increased enjoyment in both of those subjects.

If you have any questions, feel free to reach out to us and we will be happy to answer them for you.

Sincerely,

Ms. Shanesz, Mr. Adrian and Dr. Michael.

[Dr. Lichou's G8 String students playing Bizet's "Habanera" \(Video\)](#)

Since last month Dr. Lichou's **G8 String students** have been working on "Habanera" selected from Bizet's opera "Carmen". The project has finally concluded and edited in the video. Our video recording was elaborated in two parts during our classworks. Only at the end these 2 parts were re-connected together. In the photos you can't see but you might hear in the video that each student actually played more than one section (solo and accompaniment)

English Grade 5 / Semester 1 Week 9

UNIT OF STUDY

R.J. Palacio WONDER VIA PULLMAN!

LEARNING OBJECTIVES

- To make clear interpretations about characters;
- To analyse the relationships between characters;
- To use the my understanding of characterisation to create my own appropriate, imaginative character.

THINK, PAIR, SHARE

- Do you have any siblings?
- How well do you get on with them?
- What are the advantages/disadvantages of having a sibling?

Grade 5 students started Part 2 "Via" in the book *Wonder*. We read part of this book as a class, but they will finish this section of the book independently. The novel's perspective switches to Auggie's older sister, Via, who begins by talking about how she has gotten used to how her entire family life revolves around Auggie and his needs. She shares what this disease is like for her as a sibling who has her own challenges.

READING

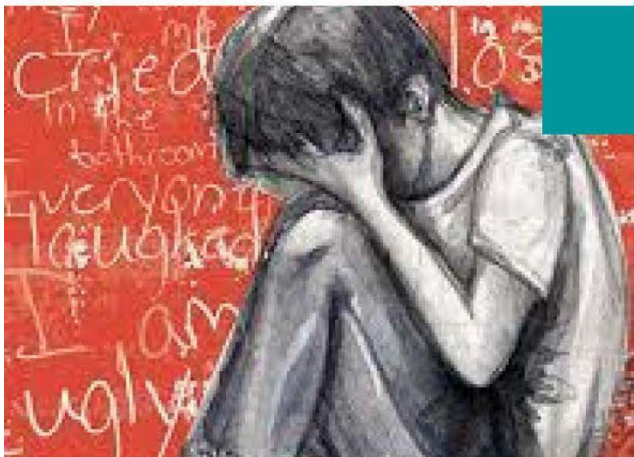

Students will finish "Part 2 Via" of *Wonder* independently. We are also beginning Unit 2. We started to analyze nonfiction text features. As I read a book about bullying, we analyzed helpful features. Later, we can use this for our own ideas.

We also read our friend's opinion writing drafts.

WRITING

Students went through the writing process independently using paper. They started by brainstorming ideas of consequences for bullying. They selected their best idea and made an outline. During class, they created a draft that they shared with peers. Everyone offered each other comments and helped to revise their work. During the weekend, students will use the feedback to create a final draft they will share with me.

VOCABULARY

Wonder Quiz

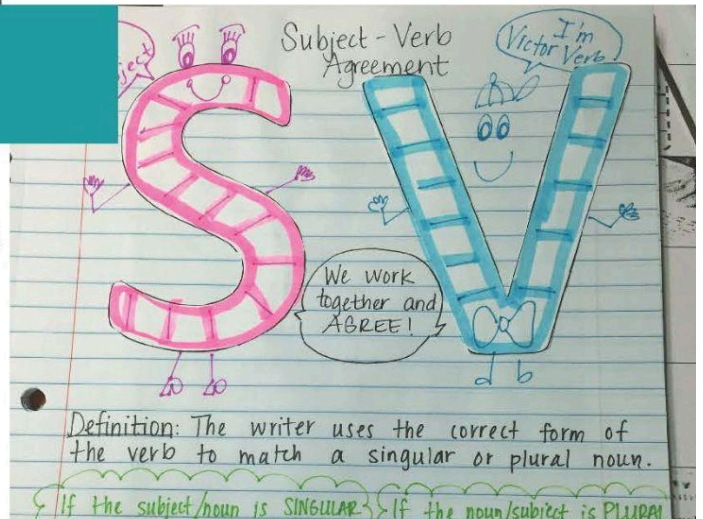

Vocabulary	Translation	Part of Speech	Definition	Picture
tube	หลอด	noun	A tube is a long hollow object that is usually round, like a pipe.	
bruise	ฟก	noun	A bruise is an injury which appears as a purple mark on your body, although the skin is not broken.	
genuinely	อย่างแท้จริง	adjective	Genuine refers to things such as emotions that are real and not pretended.	
smearing	เลอะ	verb	If you smear a surface with an oily or sticky substance or smear the substance onto the surface, you spread a layer of the substance over the surface.	

Students viewed their notes to select 10 academic words they learned while reading and highlighted blue. They added these words to a document and began researching the definition. In the document, they had to translate, add the part of speech, create a student-friendly definition, and include a picture that helps to learn the word. We will share these documents with our class to help everyone increase their academic vocabulary.

Academic vocabulary help students understand oral directions and instructions as well as comprehend text across different subject areas. This in turn prepares them to be successful at university.

GRAMMAR

Students applied what they learned about a complete sentence subject and verb. By identifying the subject and verb, we could see that this could change depending on if the subject was singular or plural. This is known as the Subject-Verb Agreement (SVA). Students worked by first identifying and then creating SVA sentences that follow nine rules. This provided another way to enhance our own speaking and writing while also supporting our friends when we help to revise.

NEXT WEEK

I look forward to seeing parents online on 12 November. It will be great to properly introduce myself and to discuss with you how I can best support your child.

If you are not available next Friday, please write me and we can schedule another time that works for both of us.

ENGLISH NEWS

English Grade 6 / Semester 1 Week 9

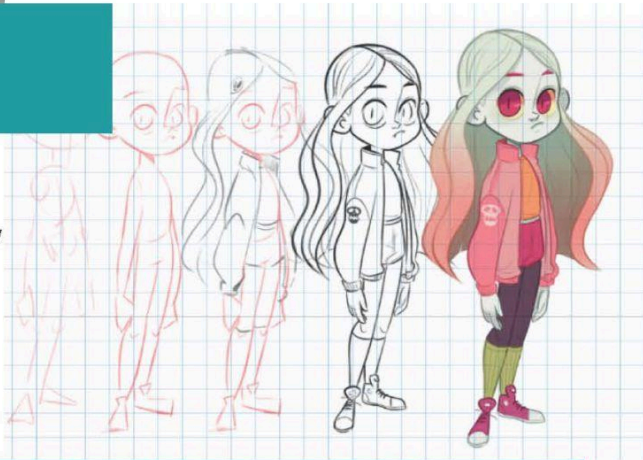

UNIT OF STUDY

Grade 6 students began a new unit for reading but will continue to apply their learning from the previous unit. Grade 6 students' nonfiction informational Ebooks are now on display in the school stairwell. It features their book's cover and a QR code for students to view. Students work diligently on creating these bilingual digital books and it is important to share our hard work with the rest of TCIS.

READING

With more students in the classroom and a routine established, students are demonstrating progress. We have started Unit 2 for reading by exploring how characters change and develop through a story. Students analyzed the main character from the fictional story they chose during their reading. They will continue to apply all the reading strategies we learned previously.

WRITING

Students completed the first steps of the writing progress for a news report. This included giving and receiving feedback from friends.

They independently chose a current event that did not get much attention. They will present their news report next week and include an MLA citation in their writing.

Create

VOCABULARY

Students created a vocabulary study guide from their nonfiction research. Their quiz featured unfamiliar academic words.

They enhanced their study guide by using student-friendly definitions, including the part of speech, and adding an image that helps to remember the definition.

GRAMMAR

Paragraph structure

Students reviewed different types of topic sentences and created examples for each. They used the topic sentence to help identify the main idea. They found three supporting details from the text.

Students will have a quiz on Tuesday 9 November.

NEXT WEEK

I look forward to seeing parents online on 12 November. It will be great to properly introduce myself and to discuss with you how I can best support your child. If you are not available next Friday, please write me and we can schedule another time that works for both of us.

Dear TCIS Community Members,

As you know, ATK testing is a requirement for school attendance. There has been some confusion over the frequency and types of tests. Below is a schedule created so that you can know the dates for you to do the test at home and bring into school. We have spread the times out so as to reduce congestion at the gates in the morning. This schedule takes us to the Christmas Break. Each Monday all staff will need to submit their results. Once every 14 days, students will need to submit their results. Please see the schedule below. For students grades 1-12 the ATK nasal test must be done. Yesterday, we received permission for the students in ECE (PK2-KG) to be able to do the Saliva Test (MOPH Samutprakarn); however, it must be from the companies validated by the Food and Drug Administration(FDA). If you choose to do the test at school only the ATK nasal test will be available for purchase.

We have also attached a calendar with the dates indicated

Schedule:

親愛的TCIS的成員們:

如您所知，ATK 檢測是學生上學的一項必要條件。關於測試的頻率和試劑類型可能產生的疑慮。以下是學校規劃的快篩檢測的時間表，以便您可以預先知道須在家中進行檢測並將檢測結果帶到學校的日期。為了減少早上學校出入口的擁堵，我們已經把檢測的時間拉長了。以下的檢測時間表延續到聖誕假期。每個星期一，所有教職員工都需要提交他們檢測的結果。每14天，學生需要提交一次檢測的結果。請參閱以下的時間表。1-12年級的學生，必須進行ATK 鼻腔檢測。昨天，我們獲得了北攬府衛生局的許可，幼稚園 (Pk2-KG) 學生可以進行唾液檢測；但是，這些試劑必須是得到食品藥物管理局驗證的公司。如果您選擇在學校進行測試，則只能購買 ATK 鼻腔測試。

我們也附上了帶有日期的行事曆

A screenshot of the TCIS PlusPortals website login page. The page has a light gray header with the TCIS logo. Below the header is a large photo of a group of smiling children in school uniforms. To the right of the photo is a 'Login' section with two input fields for 'User Name' and 'Password'. A red arrow points to the 'User Name' field. Below these fields are a 'Remember Me' checkbox, a link 'Can't access your account?', and a blue 'Sign In' button. Further down is a 'School Resources' section with the text 'No School Resources have been posted.' and a partially visible sentence 'Since its establishment in 1995, the Thai-'.

You will see your entire family on this screen. Student currently being viewed is to the left. Other student(s) are to the right.

Below, you'll see a list of the student's courses, recent scores, and attendance. Please note that you can change the Quarter you're viewing.

The screenshot shows the student profile for Pannaporn Kaewmark. The page has a top navigation bar with 'Home', 'Overview', 'Classroom', and 'School'. The 'Overview' tab is active. Below the navigation bar, there are three main sections: 'Current classes', 'Recent Scores', and 'Attendance Totals'. Red arrows point to these sections with labels: 'Quarter being viewed' points to the 'Progress: Quarter 2' dropdown; 'Current classes' points to the table of subjects; 'Recent scores (grades)' points to the 'Recent Scores' table; and 'Attendance' points to the 'Attendance Totals' table.

Computer Policy for 2021-22

Student Computers - 2021-22

The Faculty and Administration believe technology is a powerful and integral part of the TCIS instructional program. While there are many good computers on the market, please understand PC/Windows based computers are not supported for academics at TCIS.

- 1) TCIS Secondary School is a MacBook/iPad one-to-one school - MacBooks or iPads are required for all grade 7 through 12 students

Save money when buying a new Mac and iPad for use in education.

- 2) TCIS Grades 5 & 6
 - a) School owned Chromebooks are provided for grades 5 & 6 students.
 - b) All students in Grades 5-6 need access to a computer at their home. Students will be using Google Classroom and various websites for school work. We do recommend a laptop but any computer for home use is fine. iPads and tables are

acceptable but have some limitations. Windows-based computers are fine for home use as well but are not allowed on the school network.

c) Grade 5 & 6 students can opt out of the school owned Chromebooks if they have their own MacBook or iPad.

i) iPads are more durable for Grade 5 & 6 students and are recommended.

3) TCIS Elementary School

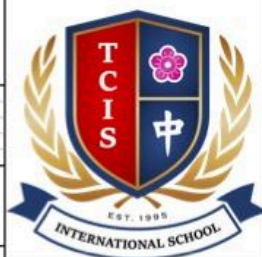

a) School owned technology is provided for elementary students

TCIS Approved Devices - 2021-2022 School Year

- Grade 7-12 MacBooks or iPads (student owned)
- Grade 5 & 6 - Chromebooks (school owned) **or** MacBooks / iPads (student owned)

Middle School Math Pathways

For math in middle school, we offer Pre-Algebra in Grade 7. In order to move to Algebra 1 in Grade 8 students must score 80% or higher in both Semesters. Alternatively, students can be placed in Algebra 1 in Grade 8 if they score 70-79% for a class average and pass a cumulative exam with a mark of 80% or above. Any Grade 7 student who does not meet these conditions must take Pre-Algebra Part 2 in Grade 8. For Grade 6, any student who does not have 80% or above for a yearly average will take Pre-Algebra Part 1 in Grade 7 and Pre-Algebra Part 2 in Grade 8.

Hair Color Requirement at the TCIS

It is a requirement that students at the TCIS maintain their natural hair color. Other colors (including highlights, shading, etc.) are not acceptable. While students enjoy trying new things in

Secondary School, hair color is not one of those things that we allow students to experiment with.

Section 5.4-2 (page 29) of the Student Parent Handbook (Uniform and Appearance) regarding hair color:

Hairstyles, if considered inappropriate for students in a school setting, will not be allowed.

Hair, even if colored, should be of natural hair color or hue.

Hair Styles Not Permitted at TCIS for Students from PK2 to Grade 12

Images such as lightning bolts are not shaved into a student's hair. (Example: Image 1)

Hair must be kept as the student's natural color. Dyed, highlighted, bleached, or colored hair is not permitted at TCIS. (Examples: Images 2 & 3)

Parents/visitors who wish to enter campus are asked to schedule an appointment through the registrar.

- Masks must be worn at all times, including the classroom.
- Students' temperature is checked upon entrance.
- Late students must check in with the Registrar to receive an "Admit to Class" slip. The registrar is located in the main lobby of the admin building.
- Students must use hand-sanitizer before entering school and before entering each classroom.
- Students must sanitize any shared classroom materials/supplies after each use.
- Students sanitize their desks before leaving from every class, with the provided supplies.
- Students must remain socially distant at all times.
- No more than 4 students in the restroom at any given time.
- Students may take their backpacks into their classroom for each block to avoid groups at the lockers.
- MS Students have a 20 minute transition period between classes.
- Students may wear a face shield as well as a mask but not instead of a mask.
- Lunch (Students' temperature is checked upon entrance to the canteen before lunch).

Students in grades 5-8 use the Accelerated Reader program to track their reading comprehension skills and obtain points based on the books they read each quarter. Accelerated Reader is a software tool that allows students to select their own book and then assess whether a student has completed reading the book by asking a

series of questions. We keep track of this each quarter and have a big party at the end of the year. Accelerated Reader is administered by the English Department under the direction of Mr. Ted, our Curriculum Coordinator and Head of English. Students in each grade are required to read independent novels and get points each quarter.

Grade 5 - 12 points

Grade 6 - 15 points

Grade 7 - 20 points

Grade 8 - 25 points

To find a list of books that qualify as Accelerated Reader (AR) books and the points for each book, please go to: <https://www.arbookfind.com/>

Reporting Student Absences and Tardies

(New Process This Year)

Send an email to: registrar@tcis.ac.th

Or

Call the Registrar's Attendance line at: [02-751-1201](tel:02-751-1201)

**Please notify the registrar as soon as possible of your child's absence or tardiness from school.
A parent or guardian must email the Registrar within one day following the absence.**

Excused Absences

For an Absence to be Excused, a parent must email/call in the absence within 24 hours. The reason for the absence must be supported by the factors outlined in the attendance policy:

- Illness with medical documentation
- observation or celebration of a religious holiday
- recovery from accident with medical documentation
- required court attendance with court notice
- death in the family
- other absences that may be deemed acceptable by the Head of Schools or Designee

Unexcused Absences

If a parent does not email/call in the absence, the student is marked as absent without excuse.

Birthday Cupcake Procedures and No Food Deliveries Policy

At TCIS, we understand that children and parents wish to celebrate birthdays with classmates. It is a big day! While we do allow children to bring in cupcakes to share with classmates, we do have procedures in place that need to be followed.

Please note, no soda, no full birthday cakes, or candles are allowed, as it takes too much time for us to cut and distribute cake to students and to clean up. Of course, candles are dangerous and present a serious fire risk.

These steps need to be followed:

- The cupcakes must come to school with the student when he/she arrives at school.
Deliveries are not allowed under any circumstances.
- The cupcake will be given to Ms. Ooy or Dr. Michael in the morning and kept their office
- Do not provide any knives to your child to cut the cupcakes.
- Cupcakes will be distributed only lunch time by the student
- No loss of class instructional time will be allowed due to the celebration

No Food Deliveries Allowed

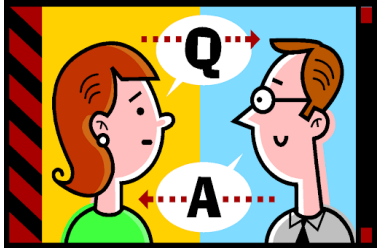

No food deliveries are allowed to TCIS at any time during the school day.

If a student forgot his/her lunch, do not worry, we will make sure to take care of them on that day. However, please do make sure your child has money on his/her card to use in the canteen.

School-Wide Learner Outcomes (SLOs)
