

Overview of FaraPC

Who am I?

My name is Yamil. I have been in the hobby of computer hardware since 2016, and profession of Information Technology since late 2022. I moved to West Lafayette/Purdue in 2023. At this point, the services I provide are fundamental skills of mine that I've decided to share with others, as putting them into practice is part of my hobby. As of late-2024, I am currently studying to acquire Cisco's CCNA 200-301 v1.1 certification. Feel free to ask if you'd like any more information about my background and experience!

What is FaraPC?

FaraPC started in 2019 as e-commerce accounts on different platforms such as eBay.com and Jawa.gg where computer hardware and other electronics are still actively sold by me. In support of my professional visions for FaraPC, the services that I provide are supported by years of hobbyist experience, and 2 years of professional experience in contracting my I.T. expertise as well as my willingness to learn and improve my skills, because it is my passion.

How it works:

Please see my services document to read what services I provide then use the attached form to submit a request! Documents and commission form listed below.

Payments & invoices are handled through Paypal Goods & Services.
