

April Teacher Spotlight

Mr. Jeff Salyer in L105 has been teaching for thirty-two years. He decided to become a teacher because of Norma Price at Sacramento State. Mr. Salyer's favorite part of teaching is interacting with the students. If Mr. Salyer could change one thing about education: it would be the bureaucracy. His advice to any new teachers is to focus on the positive instead of the negative. A fun fact about Mr. Salyer is that he lived in different states and countries as a child because his family is a military family.
