The end of the extremist Zionist world order due to Israel's war on Gaza, which was the main reason for spreading awareness among the peoples of the world to destroy the plans of the terrorist Zionist world order. The killing of thousands of innocent civilians from the people of Gaza was not in vain, but rather turned into a curse whose price is being paid by the Zionist world order, America and Israel, which made them all demand the immediate end of Israel's war on Gaza and Israel's withdrawal from Gaza after losing hundreds of billions of dollars without any benefit and destroy the Israeli economy locally and globally after they became outcasts from all the peoples of the world and global boycott campaigns and global demonstrations against America and Israel which will not stop except by ending Israel's war on Gaza and Israel's withdrawal from Gaza, Therefore, international efforts must be combined to oblige Israel to respect the latest Security Council decision and enforce the immediate end of Israel's war on Gaza and decisively apply fair international law to punish Israel for war crimes, genocide, and Israeli terrorist violations against innocent civilians, to preserve the credibility and effectiveness of fair international law in front of the peoples of the world, as international law rules with justice among the peoples of the world without discrimination, regardless of nationality or religion. Therefore, an arrest order must be issued for Benjamin Netanyahu and senior war leaders for the war crimes they committed and obliging Israel to pay compensation to the innocent civilians of Gaza for the destruction they suffered due to the war crimes committed by Israel so that the people of Gaza can rebuild Gaza after Israel destroyed more than 70% of the infrastructure and residential buildings In Gaza, and killed more than 35,000 people, including 20,000 children and women, and more than 78,000 innocent civilians were injured. All the peoples of the world demand the immediate end of Israel's war on Gaza and Israel's withdrawal from Gaza, Recognizing Palestine as an independent country, the liberation of Palestine, and the Holy Land of East Jerusalem, which is considered the most important Holy Land for Christians and Muslims from all over the world, and immediately they all have to work towards a two-state solution Palestine and Israel according to the 1967 borders with East Jerusalem being the capital of Palestine, since the two-state solution is the basis for permanent peace.

Very important report – Latest update May 2024

Research Name: Be Free Gaza

Website: www.befreegaza.blogspot.com

Please pay attention to every word in this research, as it is considered as a shield to protect the peoples of the world because of its great influence on decisions to reform many political and economic conditions, end wars, and spread peace throughout the world.

These facts have been translated into all languages, published around the world and sent to all governments, media, international human rights organizations and others. Please send them to others to spread awareness of the truth of the Palestine issue and its solution and spread peace in the world - Translation, publishing and distribution rights are free for all countries of the world.

The wisdom and logic confirm that in order for any issue to be resolved, you must see the full picture of the truth of the issue without obscuring the facts. Here, by answering the following questions, we will see the full picture of the truth of the issue of Palestine and Israel and how to solve it.

The first question: Why was Israel's war on Gaza the main reason for the end of the extremist Zionist world order?

The second question: Why did the American government distort America's reputation globally as a sponsor of Israeli terrorism in Gaza, which killed thousands of children, women, and other innocent civilians of Gaza?

The third question: What is the difference between the strategy of construction and development investments, and the strategy of the stupid occupation based on war that ended more than 50 years ago?

Fourth question: Why did the Israeli government destroy the Israeli economy locally and globally and risk the lives and stability of its people?

The fifth question: What is the role of the will of the world's peoples as the actual ruler of the world and their mission to raise awareness throughout the world in order to destroy the plans of the extremist Zionist world order and spread peace all over the world?

The Sixth question: What is the difference between the situations of the world's Jews before the extremist Zionist occupied Palestine and their situation after it, and how can true peace be restored to them without racial discrimination after they became outcasts from all the peoples of the world?

The first question: Why was Israel's war on Gaza the main reason for the end of the extremist Zionist world order?

Israel's war on Gaza was the main reason for the end of the Zionist world order for several reasons, the most important of which are:

1- America's loss of billions of dollars in financing the Gaza war without any benefit, this is in addition to the continued loss of hundreds billions $ from Israeli and American institutions and companies run by the extremist Zionist world order due to global boycott campaigns and global demonstrations by the peoples of the world against the extremist Zionist world order, America and Israel, in order to support innocent civilians from the people of Gaza those who have been killed by the Israeli terrorism, since the attack on innocent civilians is called terrorism and a violation of international law, Israel must be punished decisively to preserve the credibility and effectiveness of fair international law in front of the peoples of the world and prevent further humanitarian disasters committed by Israel, as the global demonstrations and global boycott campaigns against Israel, America, and the extremist Zionist world order will not end except by ending Israel's war on Gaza and Israel's withdrawal from Gaza.

It is time for the Security Council to assume its responsibility towards the peoples of the world to resolve global issues, intervene immediately and obliging Israel to enforce the immediate end of Israel's war on Gaza, Israel's withdrawal from Gaza, and allow the entry of food, medical supplies and fuel to reduce the humanitarian suffering of the people of Gaza, Recognizing Palestine as an independent country, Palestine obtains the full membership in the United Nations and immediately work for a two-state solution Palestine and Israel according to the 1967 borders in order the world stabilizes and peace prevails among the peoples of the world since The two-state solution is the basis for permanent peace

Furthermore, the veto must not be used in the Palestine issue in order to preserve the credibility and effectiveness of Security Council resolutions in front of the peoples of the world, as America has no right to use the veto in the Palestine issue because it is the first party in the conflict that financed Israeli terrorism in Gaza against innocent civilians, also everyone who has the right to use the veto such as China and Russia must intervene to stop the effectiveness of America's use of the veto in the Palestine issue.

2- The American people's awareness increased to resist the plans of the terrorist Zionist world order and they held many demonstrations to demand the immediate end of Israel's war on Gaza, Israel's withdrawal from Gaza, stopping American funding for Israeli terrorism in Gaza, implementing fair international law decisively and punishing Israel for war crimes and violations of Israeli terrorism against innocent civilians in order to preserve the credibility and effectiveness of fair international law in front of the peoples of the world, in addition to demanding the resignation of the American government due to its mismanagement and financing of Israeli terrorism in Gaza with billions of dollars without any benefit, despite the high economic inflation and increasing foreign debt that America suffers from. This is in addition to distorting America's reputation by engaging in a war of genocide against innocent

civilians in Gaza, which led to the deterioration of economic conditions in America due to global boycott campaigns and global demonstrations by the peoples of the world against America

The problem is not with the people of America or the people of Israel, but the problem is with the corrupt employees of the Israeli government and the American government who ignited the war on Gaza with the aim of obtaining billions of dollars from America's budget, that these corrupt people obtained without considering the danger of Israel's war on Gaza, which caused the collapse of the American economy and the collapse of the Israeli economy and the end of the Zionist world order and the loss of hundreds of billions $ from the people of America and the people of Israel, who are suffering today from the collapse of the economy, boycott campaigns, and persecution from all the peoples of the world due to the killing of innocent civilians from the people of Gaza. Therefore, the people of America and the people of Israel held demonstrations, demanding the immediate end of Israel's war on Gaza and Israel's withdrawal from Gaza and the resignation of both the Israeli government and the American government, since it is not allowed for any government to have the right to make a decision to go to war except with the official approval of the people of the country, since the first to pay the price of war are the peoples of the countries waging aggression and war, since it will result the collapse of the economy of the aggressor countries and the sacrifice of soldiers and innocent civilians. Therefore, all countries of the world must apply diplomatic solutions to resolve all matters and conflicts and applying fair solutions for all parties, and in the event that the ruler is out of his mind and decide to go to war then his country's people must remove him from his position as a ruler to protect their country from involvement in war and threatening their security and economy!

3- The Israeli people's awareness increased to resist the plans of the terrorist Zionist world order and they held demonstrations demanding the immediate end of Israel's war on Gaza, Israel's withdrawal from Gaza, and the resignation of the Israeli government, which threatened the national security of the Israeli people and destroyed the Israeli economy locally and globally because of Israel's war on Gaza, which was the reason for the global boycott campaigns against all Israeli companies and the companies run by the Zionist world order locally and globally, which led to the bankruptcy of many Israeli companies and the collapse of the Israeli economy in exchange for billions of dollars that the Israeli government obtained from America without considering the danger of the war on the public interest of the people of Israel, who today suffer from the collapse of the economy and persecution from all the peoples of the world due to the killing of innocent civilians from the people of Gaza

4- The game of Israel's resistance to Hamas has become a burned card, as the peoples of the world have become fully aware that Hamas' resistance is not a national resistance to Palestine, but rather Israel established and recruited it to put pressure on the Palestinian government and manage electronic mining operations to control the people of Palestine in Gaza in order to avoid direct contact with the people of Palestine in Gaza. Israel also uses Hamas in all of its previous and current conflicts, when it wants to ignite a war and attack the people of Gaza, Israel orders Hamas to instigate the attack on the Jews, and thus it has a reason to attack the innocent civilians of the people of Gaza! If Israel's goal was to fight Hamas, it could arrest Hamas leaders in Qatar, where the American base in Qatar is located!

It is not logical that the reason for the continuation of Israeli terrorism in Gaza is the dispute between Israel and Hamas over the exchange of less than 200 Israeli prisoners, while Israeli terrorism in Gaza killed more than 35,000 innocent Palestinian civilians, including 20,000 children and women, under the rubble of civilian residential buildings, hospitals, and churches, In addition to the 78 thousand wounded, forced displacement, and genocide, which constitutes terrorism, war crimes, and a violation of international law, therefore Israel must pay the price, to prevent further humanitarian disasters committed by Israel, and international efforts must be combined to oblige Israel to respect the latest Security Council decision and enforce the immediate end of Israel's war on Gaza and decisively apply fair international law to punish Israel for war crimes, genocide, and Israeli terrorist violations against innocent civilians, to preserve the credibility and effectiveness of fair international law in front of the peoples of the world, as international law rules with justice among the peoples of the world without discrimination, regardless of nationality or religion, Therefore, an arrest order must be issued for Benjamin Netanyahu and senior war leaders for the war crimes they committed and obliging Israel to pay compensation to the innocent civilians of Gaza for the destruction they suffered due to the war crimes committed by Israel so that the people of Gaza can rebuild Gaza after Israel destroyed more than 70% of the infrastructure and residential buildings In Gaza, and killed more than 35,000 people, including 20,000 children and women, and more than 78,000 innocent civilians were injured.

What is the importance of the 200 Israeli prisoners held by Hamas while Israel is holding more than 30,000 Palestinian prisoners of innocent civilians, including women and children! Common sense and human conscience do not distinguish between people; all people are equal, regardless of nationality and religion, threatening the lives of civilians from all sides is not a game, but it is considered terrorism, a crime, and a violation of international law. Israel must be punished decisively for these crimes, and Israel's war on Gaza must be immediately ended.

If really Israel cared about the affairs of the prisoners, it would have agreed to an immediate end to the war and withdrawal from Gaza in exchange for the release of the prisoners who have been held by Hamas since the first month of the beginning of the war, without delaying for more than seven months, which the Israeli government, the American government, and Hamas wanted that delay in agreement with each other, since all the conflicting parties are funded by One party and the one who pays the price are the Palestinian people, the Israeli people, and the American people. Therefore, both the American people and the Israeli people held demonstrations, demanding the immediate end of Israel's war on Gaza and Israel's withdrawal from Gaza!

If really Israel wants to negotiate, it must negotiate with the Palestinian government which represents the people of Palestine, instead of negotiating with Hamas which represents Israel!

All the countries' rulers, politicians and the media must respect the minds of their peoples, as there is no possibility for lies and no possibility for secrets in a world that has become like a small village! All the peoples of the world are fully aware of the truth of what is happening behind the scenes of the war and military maneuvers carried out by Israel and America, as all the conflicting parties are funded by one party

Hamas was part of the plan from the beginning, as it was the main cause of the Gaza war in agreement with Israel. In addition, Israel destroyed the homes of civilians from the people of Gaza only, without attacking Hamas, to force the civilians from the people of Gaza into forced displacement, but the civilians of Gaza will never leave their land, which means that America is financing a failed war that have no benefit. Rather, the war has become the reason for the collapse of both the American economy and the Israeli economy.

The second question: Why did the American government distort America's reputation globally as a sponsor of Israeli terrorism in Gaza, which killed thousands of children, women, and other innocent civilians of Gaza?

The people of the world are fully aware that the problem is not with the people of America or the people of Israel, but rather with the corrupt employees of the Israeli government and the American government who ignited the war on Gaza with the aim of obtaining billions of dollars from America's budget obtained by these corrupt people without considering the danger of Israel's war on Gaza, which caused the collapse of the American economy, the collapse of the Israeli economy, the end of the Zionist world order, and the loss of hundreds of billions of dollars from the people of America and the people of Israel, who are suffering

today from the collapse of the economy and boycott and persecution campaigns from all the peoples of the world due to the killing of innocent civilians from the people of Gaza. Therefore, the people of America and the people of Israel rose up with demonstrations, demanding the immediate end of Israel's war on Gaza, Israel's withdrawal from Gaza, and the resignation of both the Israeli government and the American government, since no government has the right to make a decision to go to war except with the official approval of the people of the country, since the first to pay the price of war are the peoples of the countries waging aggression and war, since it will result the collapse of the economy of the aggressor countries and the sacrifice of soldiers and innocent civilians. Therefore, all countries of the world must apply diplomatic solutions to resolve all matters and conflicts and applying fair solutions for all parties, and in the event that the ruler is out of his mind and decide to go to war then his country's people must remove him from his position as a ruler to protect their country from involvement in war and threatening their security and economy!

The false declared goal is to establish an American Navy base in Gaza, despite the fact that Israel and America are fully aware of the impossibility of implementing any project in Gaza for several reasons, the most important of which is that Gaza has more than one forces competing for rule, namely Israel and (Hamas, and the Palestinian government which represents the civilian population of Gaza), and the idea of evacuating Gaza of civilians will never happen, as the civilians of Gaza will never give up their land even if they die in the thousands, and there is no other place for them to immigrate to except the West Bank, which is ruled by Fatah, which means that the circle of conflict between Israel and (Hamas, Fatah, and the Palestinian government) will never allow for implementing any American project in Gaza, that is why Israel choose Gaza in order to allow these corrupt employees of the American government and the Israeli government to obtain billions of dollars from America's budget to finance a useless war, If America's goal was to establish an American base, why it does not choose one of the other Israeli ports without igniting a war!!! And If America's goal was getting the gas wells in the Mediterranean, what is the use of gas wells whose estimated output is not worth 20% of the billions of dollars from what America spent on Israel's war on Gaza!!! And If America's goal was to establish a canal connecting the Gulf of Aqaba to the Mediterranean, then what is the use of a canal spent on its building hundreds of billions of dollars that no one will use except Israel, since the shortest path between European countries in the Mediterranean and the Red Sea is the Gulf of Suez compared to the Gulf of Aqaba which is hundreds of kilometers away!!! These are false and useless projects that will never be implemented, but the real goal of the war is allowing for these corrupt employees of the American government and the Israeli government to obtain billions of dollars from America's budget, Therefore the people of America and the people of Israel held demonstrations,

demanding the immediate end of Israel's war on Gaza, Israel's withdrawal from Gaza, and the resignation of both the Israeli government and the American government.

But if America's goal was to spread instability in the world, then those whose economy was most affected and who lost hundreds of billions of dollars are only America, Israel, and the Zionist world order, as the killing of thousands of innocent civilians from the people of Gaza was not in vain, but rather turned into a curse whose price is being paid by America, Israel, and the Zionist world order, Where God takes revenge from the oppressors by destroying their lives as revenge for what they have done of destroying the lives of the innocent people and oppressed on earth, and there is no escape from punishment except those who repent and make amends, God said "Whoever does an atom's weight of good will see it, and whoever does an atom's weight of evil will see it." The American government has lost the credibility and effectiveness of its false statements due to the contradiction between its words and actions, while America is capable of immediately ending Israel's war on Gaza from its beginning. Therefore, It is time for America to change its policy and immediately end Israel's war on Gaza and Israel's withdrawal from Gaza, and to work to spread stability and peace in the world by taking actual actions and not useless statements, while the confidence of the peoples of the world is based on seeing the results of taking actual actions and not useless statements. Therefore, it is time for America and international efforts to oblige Israel to respect the latest Security Council decision and execute the immediate end of Israel's war on Gaza, in order to maintain the credibility and effectiveness of Security Council resolutions in front of the peoples of the world, since The global demonstrations and global boycott campaigns against America, Israel, and the extremist Zionist world order will not end except by ending Israel's war on Gaza and Israel's withdrawal from Gaza.

The third question: What is the difference between the strategy of construction and development investments, and the strategy of the stupid occupation based on war that ended more than 50 years ago?

The construction and development investment strategy is based on the following:-

1- **The stability of all countries contributing to construction and development investments**
2- **Obtaining hundreds of billions of dollars to finance construction and development investments**
3- **Employing the army and civilians in construction and development investments**

4- Growth and recovery of the economies of countries contributing to construction and development investments

5- The abundance of consumer goods at the cheapest prices in a way that suits all groups, especially the poor and middle classes of the people, as they represent more than 90% of the market size.

6- Increase market size and increase demand

7- Increased production and doubled profits for all parties contributing to construction and development investments

But the strategy of the stupid occupation based on war that ended more than 50 years ago is based on the following:

1- The instability of countries waging aggression and war

2- The collapse of the economy of countries waging aggression and war

3- Sacrificing the lives of soldiers and innocent civilians from countries waging aggression and war

4- Global boycott campaigns against countries waging aggression and war

5- Loss of hundreds of billions of dollars from countries waging aggression and war

6- High economic inflation in countries waging aggression and war

Therefore, it is not allowed for any government to have the right to make a decision to go to war except with the official approval of the people of the country, since the first to pay the price of war are the peoples of the countries waging aggression and war, since it will result the collapse of the economy of the aggressor countries and the sacrifice of soldiers and innocent civilians. Therefore, all countries of the world must apply diplomatic solutions to resolve all matters and conflicts and applying fair solutions for all parties, and in the event that the ruler is out of his mind and decide to go to war then his country's people must remove him from his position as a ruler to protect their country from involvement in war and threatening their security and economy!

America and Israel have lost everything because of their use of the stupid occupation strategy that ended more than 50 years ago, with the aim of obtaining some billions of dollars in exchange for the loss of their country's stability and security, the global boycott campaigns and global demonstrations against them, the loss of hundreds of billions of dollars, and the collapse of the economy in America and Israel, therefore America and Israel must agree to a two-state solution Palestine and Israel, as the two-state solution is the basis for permanent peace, which will lead to the stability of the two countries Palestine and Israel, and the development of the economy, since In the modern era there is no need to occupy any land as smart countries in the current era do not need entering into a war to

obtain any land, since any country has the right to invest in any land in the world and establish construction and development projects that benefit all parties. This is in addition to the fact that the armies of the world in the current era are used in construction and development operations in addition to maintaining the security of the country.

Fourth question: Why did the Israeli government destroy the Israeli economy locally and globally and risk the lives and stability of its people?

Because America paid billions of dollars to Israeli terrorism in Gaza that killed more than 35,000 innocent Palestinian civilians, including 20,000 children and women, under the rubble of civilian residential buildings, hospitals, and churches, In addition to the 78 thousand wounded, forced displacement, and genocide, which constitutes terrorism, war crimes, and a violation of international law, therefore Israel must pay the price, and to punish the terrorist Israeli government decisively in order to maintain the credibility and effectiveness of fair international law in front of the peoples of the world and prevent the occurrence of more humanitarian disasters committed by Israel, since the global demonstrations and global boycott campaigns against Israel, America, and the extremist Zionist world order will not end except by ending Israel's war on Gaza and Israel's withdrawal from Gaza

Israel knows very well that the Palestinian people will never leave and will never give up their land over the course of previous and current conflicts, but the real goal of the military operations is to allow these corrupt employees of the American government and the Israeli government to obtain billions of dollars from America's budget to finance a useless war, without considering the danger of Israel's war on Gaza, which caused the collapse of the American economy, the collapse of the Israeli economy, the end of the Zionist world order, and the loss of hundreds of billions $ from the people of America and the people of Israel, who are suffering today from the collapse of the economy, world peoples boycott campaigns, and persecution from all the peoples of the world because of the killing of innocent civilians from the people of Gaza, so the people of America and the people of Israel held demonstrations, demanding the immediate end of Israel's war on Gaza, Israel's withdrawal from Gaza, and the resignation of both the government of Israel and the government of America!

All the peoples of the world know very well that if Israel were not deliberate neglect and allowing the Hamas resistance to enter to kill innocent Jewish civilians, there would be a reason for Israel to launch war and kill thousands of innocent civilians from the people of Gaza under the pretext of fighting Hamas! But the truth is that it launched the war in

exchange for billions of dollars obtained by these corrupt employees of the Israeli government and the American government

The fifth question: What is the role of the will of the world's peoples as the actual ruler of the world and their mission to raise awareness throughout the world in order to destroy the plans of the extremist Zionist world order and spread peace all over the world?

The peoples of the world must spread awareness throughout the world and unite together to resist the extremist Zionist world order that is playing with the lives of the peoples of the world, Therefore, all the peoples of the world must boycott all international institutions and companies run by the extremist Zionist world order, which will make them lose all their institutions and their companies go bankrupt, and in order the game of wars ends, any war that the extremist Zionist ignites, must be faced by a global boycott campaign of all global institutions and companies run by the extremist Zionist world order, in addition to launching peaceful demonstrations by the peoples of the world, which will lead to the immediate end of the war and stability for the peoples of the world.

We need to prove for them that the world's peoples' lives are not a game!!! , the peoples of the entire world have the right to live in peace and stability, who among us wants to go to war unless he is out of his mind!!! Therefore, the peoples of the world must intervene with peaceful demonstrations, in addition to the intervention of the Security Council, the United Nations Assembly, and international organizations, and they all have to work towards a two-state solution, Palestine and Israel, according to the 1967 borders since the two-state solution is the basis for permanent peace. Furthermore International efforts must also be combined to provide the necessary food, medical supplies and fuel to reduce the human suffering of the people of Gaza; unfortunately, they were the victims of the political distraction game for the peoples of the world

Therefore, all the peoples of the world must stop encouraging any party participating in the war, as threatening the lives of civilians and killing them from all parties participating in the war is not a game, but is considered war crimes and a violation of international law, However diplomatic solutions must be resorted to resolve all disputes and conflicts, as all disputes are easy to resolve if the real causes of the issue are known without obscuring the facts, and apply fair solutions for all parties, as justice is the foundation of kingship

Let us see what is the main reason for these conflicts between Israel and Palestine, The State of Palestine and Israel lived together in peace on the 1967 borders when the Jewish Holy Lands in West Jerusalem were under the rule of Israel, and the Holy Lands for Christians and

Muslims in East Jerusalem were under the rule of the State of Palestine, but after the 1967 war and the conversion East Jerusalem and the Holy Lands of Christians and Muslims for the peoples of the world, were turned into military barracks by order of the extremist Zionist world regime to provoke the anger of the peoples of the world either Christians or Muslims and to call for a Palestinian uprising to defend the Holy Lands. Thus, there is a reason for the continuation of conflict and instability in exchange for the extremist Zionist world regime paying billions dollars to Israel.

Therefore, the peoples of the world must spread awareness of the goals of extremist Zionist plans and work towards a two-state solution, Palestine and Israel, according to the 1967 borders, with East Jerusalem being the capital of Palestine, so the conflict between Palestine and Israel ends, peace prevails in the world, and the Jews of the world live in true peace without being viewed as an occupier of the Holy Lands in the East Jerusalem, which is the religious destination of Christians and Muslims for all peoples of the world

It is time for the Security Council to assume its responsibility towards the peoples of the world to resolve global issues, intervene immediately and obliging Israel to enforce the immediate end of Israel's war on Gaza, Israel's withdrawal from Gaza, and allow the entry of food, medical supplies and fuel to reduce the humanitarian suffering of the people of Gaza, Recognizing Palestine as an independent country, Palestine obtains the full membership in the United Nations and immediately work for a two-state solution Palestine and Israel according to the 1967 borders in order the world stabilizes and peace prevails among the peoples of the world since The two-state solution is the basis for permanent peace

Furthermore, the veto must not be used in the Palestine issue in order to preserve the credibility and effectiveness of Security Council resolutions in front of the peoples of the world, as America has no right to use the veto in the Palestine issue because it is the first party in the conflict that financed Israeli terrorism in Gaza against innocent civilians, also everyone who has the right to use the veto such as China and Russia must intervene to stop the effectiveness of America's use of the veto in the Palestine issue.

The Sixth question: What is the difference between the situations of the world's Jews before the extremist Zionist occupied Palestine and their situation after it, and how can true peace be restored to them without racial discrimination after they became outcasts from all the peoples of the world?

The difference can be summed up in one word, which is peace, as the Jews of the world lived in true peace before 1948; there is no difference between a Jew, a Christian, and a Muslim, But when the extremist Zionist established the world order based on fear and terrorism to

control the world and occupy the Palestinian lands, which include the holy lands for Christians and Muslims in the East Jerusalem, and turning it into military barracks which turned the entire world into hating the Jews, staying away from them, not dealing with them, and boycotting them in all economic fields for fear of themselves and their reputation. Which affect the Jews of the world and they became Outcasts from all the peoples of the world and unable to live in peace. Therefore, the Jews of the world must unite with the will of the peoples of the world to resist and destroy the extremist Zionist, and working towards the independence of the occupied Palestinian territories in accordance with the 1967 borders, with East Jerusalem being the capital of independent Palestine, so peace is restored in the world and the Jews of the world live in peace, since the two-state solution of Palestine and Israel is the basis for lasting peace, as what is the value of owning the world without peace! The strong are not the ones that everyone fears, but the strong are the ones who provide security, stability and peace for all people.

The whole world has the right to live in peace, safe and secure without fear. All the peoples of the world demand the liberation of Palestine and the Holy Land of East Jerusalem, which is considered the most important Holy Land for Christians and Muslims from all over the world. Long live free and independent Palestine.

In the name of God, in the name of peace, God spread peace throughout the world and liberate Palestine and the Holy Land of East Jerusalem, which is considered the most important Holy Land for Christians and Muslims from all over the world, Amen

Please pay attention to every word in this research, as it is considered as a shield to protect the peoples of the world because of its great influence on decisions to reform many political and economic conditions, end wars, and spread peace throughout the world.

These facts have been translated into all languages, published around the world and sent to all governments, media, international human rights organizations and others. Please send them to others to spread awareness of the truth of the Palestine issue and its solution and spread peace in the world

This research has been written based on international studies in a simplified and concise manner so that it is easy for all people to be aware of it and work together to solve the issue of Palestine and Israel, Be together for peace.
