

Learning Overview: Week of August 26th-30th

English Language Arts:

All About Me Posters

- **Learning Goals:** Students will create a poster showcasing their personalities and interests. They will practice writing complete sentences and focus on neat penmanship.

Math:

2nd Grade Math Concept Review

- **Learning Goals:** Students will participate in a spiral math review to refresh their understanding before we start learning third-grade concepts. A strong grasp of addition and subtraction is important, as it forms the basis for future learning. We will spend time practicing these skills to ensure fluency.

Religion:

Prayers:

- [Our Father](#)
- [Classroom Prayer](#)
- **Learning Goals:** As part of our religious standards, students will learn to demonstrate knowledge of Catholic prayers and mass responses.

Science:

Mystery Science Exploration

- **Learning Goals:** Using our curriculum, Mystery Science, the class will explore a series of mini-lessons that their interests will guide. This will provide an opportunity for students to reacquaint their curiosity for science and hands-on learning.

Social Studies:

Unit- Changes Over Time

- **Learning Goals:** The students will brainstorm changes that have occurred both locally and globally. They will be shown past pictures and asked to identify differences and similarities in technology,

transportation, communication, and infrastructure. The information gathered will be used to create a Google Slides presentation for the final project.

Accelerated Reader (A.R.):

- **Goals:** Students should practice pace, prosody, and accuracy when reading books within their AR level. They *must complete one book and a comprehension quiz every two weeks, for a total of six books per trimester.*
