

Event Name:

Seminar Presentation Competition: Contributions of Ramanujan to research in Mathematics.

Objective:

As we know that confidence is very important for everyone at each stage of life, which somewhere a science lacks as he or she did not have many opportunities to speak in front of audience. So, by attending these types of seminar competition boosts up the confidence of a student which helps him or her during an interview. And students will understand Contributions of Ramanujan to research in Mathematics.

Summary:

On the occasion of Ramanujan's Born day, the national level seminar competition held on 26th December 2024 at 2PM. 26 students participated in the seminar competition. All of them were very well prepared with the origin, applications and the concepts like Contributions of Ramanujan to research in Mathematics.

Benefits:

1. Students got to know the important Contributions of Ramanujan to research in Mathematics.
2. The interest in students to learn and share the new concepts.
3. Participating in such events help them build confidence.
4. Audience got to know about various Contributions of Ramanujan to research in Mathematics.
