

Maryna Boiko

Junior UI/UX designer (Remote / full time)

I have experience in creating visuals for social media, targeted advertisement, landings for advertisement and commercial purpose, creating user-flow, wireframing, ux-researching. I work mainly in Figma (both design and prototyping), animation interface in After Effect. I am very interested in UX design: understanding user needs, conducting research, creating user-friendly interfaces.

I am not afraid to work in a team and take responsibility for a certain amount of work.

- **Work experience**

UI UX designer

Jun 2023 to present, Team Challenge (part time)

Now I am creating the design of the chat application in the team of developers and testers. Personas were developed, direct and indirect competitors were researched, user flow, wireframes of the future application, landing page and mobile version of the application were created.

Web designer

Jun 2021 to Apr 2022, BOMOND GROUP LLC

Design visuals for social media, banners for a main website, create landings.

Working together our teams raised the sales of the online store higher than physical stores. Creating creatives for tagrets and well-tuned advertising were able to sell all the remnants of care cosmetics.
