

Ishtar

rr и его [цифры](https://br.evetools.org/related/30003104/202311201300) с [реактивкой](https://br.evetools.org/related/30003113/202311292100) (при уроне одним типом дамага)
У меня только 2а “окна”. Но вы легко можете экстраполировать цифры на большее. Если окон много стоит подумать о плите и ассаултной аптечке, которая даст буфер - время на реагирование на урон.
С плитой видел концепт у Ferrata Victrix
