

Welcome to this new tutorial guys. In this tutorial I will teach you how you can earn over \$100+ a day with some simple steps.

Step 1.) Creating an account

Make an account at <https://members.ogads.com/signup.php>.

OGADS is a CPA network which allows you to promote apps and offers. If someone installs an app or completes a survey from your links, you will get a small commission like \$0,40 up to \$4.

This doesn't seem like a lot of money. But think about it for a second. If 1000 people download an apple through you're link, you will get \$4000!

There are a lot of people who think its hard to get accepted by this network but its not,just follow the strategy bellow and you will get accepted 100 %.

Go here: <https://members.ogads.com/signup.php>

Enter your personal info,how do you whant to get paid etc

If you don't have a website put: www.youtube.com

And they will ask you where do you get traffic from,just copy paste this:

I am planning to advertise my links and earning money by creating game niche websites, youtube videos and also advertising on some forums. I plan on making a website for each niche I have and also plan on doing some SEO to get it high on Googles ranking system, I also will promote my offers via ppc and ppv(propellerads+landing pages). I have been motivated by various people to start earning money on the web and I will dedicate a few hours of my day to achieve this. I hope to be earning with your website soon.I will make a review about ogads on blackhatworld if I get accepted,thanks!

Step 2.) Creating a CPA offer.

This is the hardest part. In many niches there is a lot of competition. This can be really frustrating. Some niches are working, and some are simply overly saturated.

I have one secret niche that made me like a \$600 dollar in 42 hours. And this niche is called the sexy babe niche . At least, that is how I call it.

This sexy babe niche will NEVER saturate, since there are perverts all around the world who are looking for sexy babes to chat with and swap some spicy pictures on snapchat
You can create a content locker which says “Install one app or take one survey to get access to my snapchat”.

You don't need to have a snap, fuck the perverts You get your money and they can just go to hell.

Step 3.) Promoting the link to you're CPA offer

This is the most easiest part of this method. And the simple answer to this is : "YOUTUBE". Youtube can make you thousands of dollar per month... if... you do it the right way.

The youtube algorithm is changing all the time and this can be a little bit sad. But over all, the youtube algorithm won't change very much or very often so this is no problem.

- **1) Setting up the video: Upload a video of a sexy girl dancing or camming. Keep in mind that you should NEVER upload a naked video to youtube. This can get you're youtube account banned instantly. So keep in mind that the underwear is always shown**
- **2) Setting up the description: This is the most easy part. Just put something like: "Hey baby, wanna chat with me on Snap? Click this link\$\$\$You're link to you're offer\$\$\$ and install one app, or complete one survey**

Step 4.) Hying the video

This is one of the hardest pasts but I have one simple method which can make your video to rank at #1.

Tip 1)

Put hashtags on your video. Put something like #sexybaby #dancing #camdancing #blondecamming. etc etc.

Tip 2)

Buy views or use addmefast. If youtube sees that your video is getting views, it will instantly recommend your video to other people because youtube thinks that your video is high of value and/or popular. Don't buy like 100k views. Start at 4k views. Best place to buy views: <http://seoclerk.com>

Scale this up, you can find cam videos on porn sites and cut them when they start to get adult 😊)

Upload as many videos as you can until you reach 150\$ per day!

That's it. Enjoy your money!
