

Key: **Intak** // **Jongseob**

## **P1ustyle #1 P1Harmony (피원하모니) - Maniac (Conan Gray) Cover**

*Original Lyrics:*

You maniac  
You made me like  
A maniac  
결국엔 너의 말은 거짓말 이뿐이라는걸 알아  
날 원하던 말 제발 그 말은 말아  
똑같은 **pattern** 속아주는 척  
삼키지 매번 꼬리를 무는 덧  
이런 거 한두 본 아닌 것도 I know  
절대 멀쩡한 적이 없고  
이기적인 너 항상 혼자만  
사랑했다가 또 미워하네  
그거 알고 있는데도 다시 **get back**  
네가 매달릴 때만 난 **we came back**

*English Translation:*

You maniac  
You made me like  
A maniac  
In the end I know that your words are just lies  
Saying you want me, please don't say those words  
Same pattern, I act like I'm fooled  
I continuously swallow a tail-biting trap  
It's not like I've seen this once or twice, I know  
I've never been fine  
Selfish, you are always alone  
Loving and hating again  
Even though I know, again, I get back  
Only when you cling on we came back

## P1ustyle #3 P1Harmony (피원하모니) - good 4 u (Olivia Rodrigo) Cover

### *Original Lyrics:*

정말 추악하고 지치겠네

우리 추억은 부정과 구멍

그리고 어긋난 문법

We plus love로

내 머리에서 나 좀 born tough

For what 어서

웃는 얼굴일때

I'm liar

Good 4 u

Before like we never kissed

넌 우리 사이 그딴 식으로 말했지

내게만 보여주겠다던 그 눈

너는 대체 몇명을 봐

### *English Translation:*

It's so ugly and tiring

Our memories are denials and holes

Along with the misaligned rules

With we plus love

In my head I'm born tough

For what, right now

When I'm smiling

I'm liar

Good 4 u

Before like we never kissed

Between us you spoke like that

That eye you said you would show to only me

How many people were you seeing

**[COVER with BLUE] P1Harmony (피원하모니) – 과거 현재 미래 (CNBLUE) Cover Ver.**

*Original Lyrics:*

서로의 시간을 물어  
서로의 계절을 보고  
너의 맘의 날씨들은 예보 없이 날 둘러  
Like 난 인공위성  
또 계산을 하고있어 널

어쩌면 비바람이 몰아치던 날  
그 시간은 네가 아니라 나였을까  
뽀뽀이 흩어진 감정 계절  
난 어디있고 넌 어디 있어

*English Translation:*

We ask for each other's time  
We report each other's weather  
Your heart's weather come around me without a forecast  
Like I'm a satellite  
I'm calculating you again

Perhaps on the day the rainstorm rushed in,  
that time it was me not you  
Season of scattered emotions  
Where am I, and where are you?
