Eddie Grew up pretty normal till at 18 he was convicted of assault and was found to not be an american citizen and was Deported back to Poland. Homeless, confused, and scared, a Polish army Recruiter came over to him and with nothing else to do he joined out of desperation. During a Routine Training Exercise Site 770 had a major Containment Breach leading to a Badly injured Eddie and His Squad torn to Shreds. A Foundation Medical team Dragged him inside, and on 4/20/2019 he Joined the foundation not Knowing what else to do. With Prowess he rose through the ranks, however he was constantly berated for being "too Nice". By 9/20/2023 he became a Sargent, But by then Site 66 needed a New NCO after the Last one Blew himself up. With
