

Invitation To Work With Us

It's a 3-minute read and a 1-minute decision.

I'm going to describe what each one is, what it's about and then you can decide which one you want to join.

The top businesses in the market don't over-rely on human labor anymore.

Companies that can focus on the highest leverage tasks within their business will have a significant advantage over the businesses who're stuck spending hours each day on manual, repetitive tasks.

AI Mastery is designed to give you skills that most other business owners profit off you NOT having so that you always have a choice on how you can run and grow your business without being dependent upon other people's advice and skills to make money... you won't need their advice, you'll have a choice to take their advice only if you want to take it not because you have to take it.

I spent 10 years in this game, and accumulated a lot of wins, scars, and battles through building several businesses.

About 1.5 years ago I started my latest venture - AI Mastery.

I'm proud to say that we already have over 20,000 customers who enrolled in our courses.

In those 11 months, we've accelerated their level of skill and success by 5-10 years...

- We had business owners go from \$100k to \$250k/ month.
- We had people have their first \$10,000 day
- We had guys double their business
- We had guys go from copywriters / consultants to publish where they publish other experts and own several offers at once

Here are some wins below:

Daniel R.
Business Owner

"The team understood our unique challenges and delivered tailored solutions that transformed our operations. The impact on our bottom line has been remarkable. Truly impressed!"

Andrea S.
Product Manager

"Thanks to AI Mastery's workflow streamlining and automation services, our team is now more productive than ever. The repetitive tasks are taken care of, allowing us to focus on strategic initiatives. Incredible results!"

Adam P.
Copywriter

"The ChatGPT Mastery course outstanding and the curriculum is comprehensive. I learned practical skills and gained valuable insights. A must for anyone interested in A.I!"

John K.
CEO

"We have experienced a significant boost in efficiency and reduced operational costs. It's amazing how A.I can optimize processes."

Christina M.
Digital Artist

"The best investment I made for my career. The practical knowledge I gained helped me land a new job in the A.I field. Thank you for the valuable education!"

Alex A.
CMO

"Our new chatbot has improved our customer engagement and streamlined our communication channels. It's like having a virtual assistant available 24/7. We couldn't be happier!"

And Here are some wins below:

Dan D.

HR Specialist

"The custom chatbot created by AI Mastery has revolutionized our customer support. It's intelligent, efficient, and aligns perfectly with our brand. Our customers love it!"

Jacob C.

Agency Owner

"The website building team delivered beyond our expectations. Our website is not only visually stunning but also incredibly functional. It has helped us attract more customers and boost our online presence."

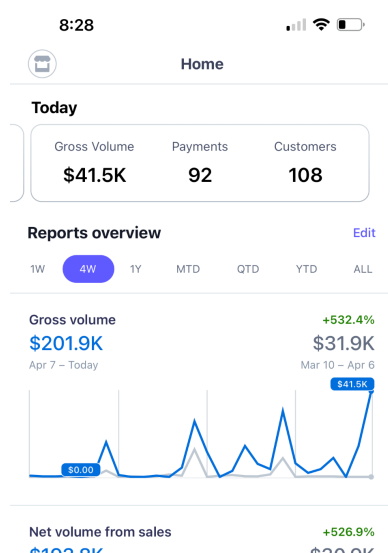

David D.

Business Owner

"The team understood our unique challenges and delivered tailored solutions that transformed our operations. The impact on our bottom line has been remarkable. Truly impressed!"

And Here are some more wins:

Net volume from sales

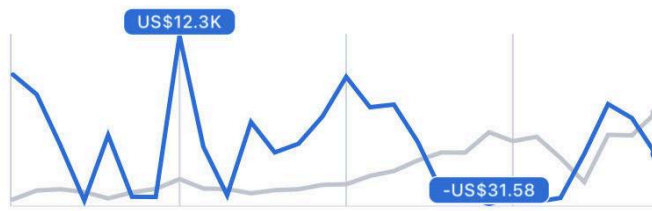

US\$116.8K

31 Mar – Today

+76.0%

US\$66.4K

3 Mar – 30 Mar

8:54

Home

Today

Gross Volume

\$43.4K

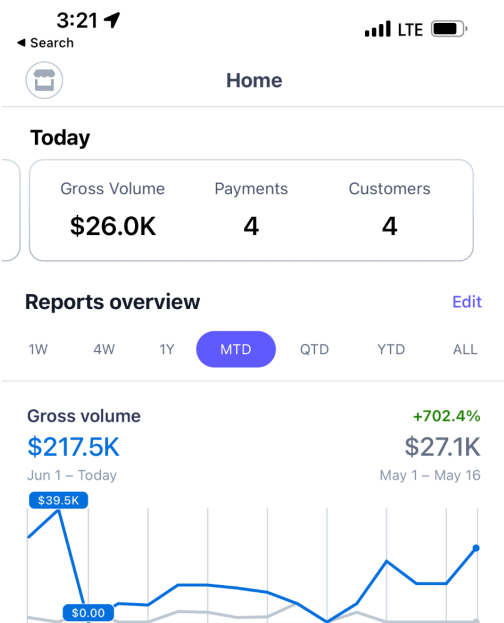

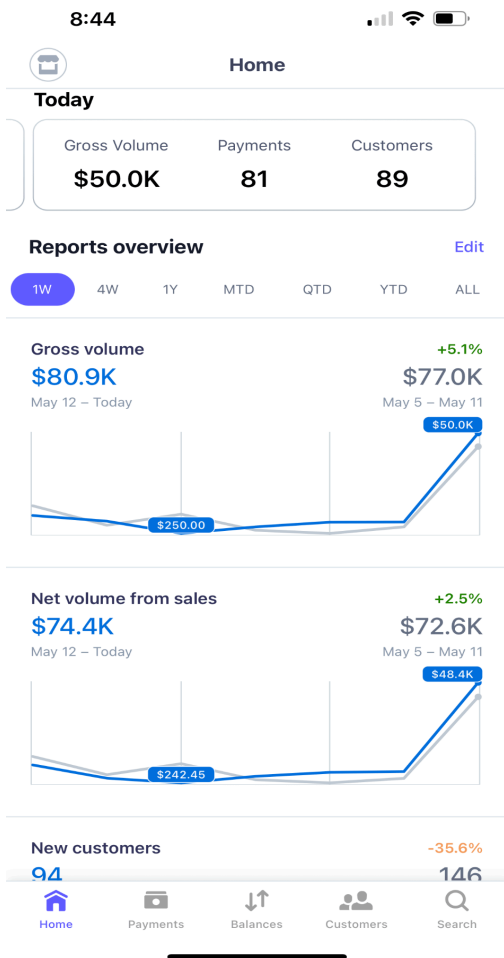

Payments

29

Customers

32

And More Wins:

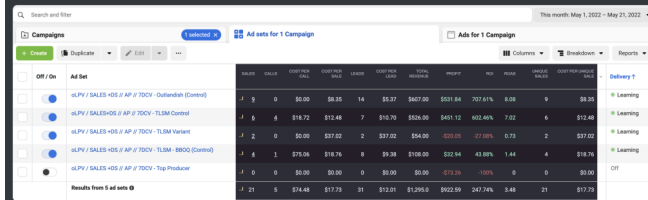

Update on that new FE offer that I just launched...

Set up the conversion campaigns and we're already getting 3x+ to Cold traffic so far, and booked calls for \$75 😎

Gonna hit about 15-20 sales a day right now with \$300/day spend.

Will be easy to scale. Stay tuned!

The screenshot shows a Google Ads interface with a table of campaign performance data. The table has columns for Ad Set, Impressions, Clicks, Cost, Conversions, Cost per Conversion, and more. The data is organized into rows for different ad sets, including 'Ad Set', 'Ad Set 1', 'Ad Set 2', 'Ad Set 3', and 'Ad Set 4'. The table is filtered for the month of May 2022.

Ad Set	Impressions	Clicks	Cost	Conversions	Cost per Conversion
Ad Set	14	14	\$6.07	\$427.00	\$30.50
Ad Set 1	7	7	\$10.70	\$431.12	\$61.59
Ad Set 2	7	7	\$10.70	\$431.12	\$61.59
Ad Set 3	7	7	\$10.70	\$431.12	\$61.59
Ad Set 4	7	7	\$10.70	\$431.12	\$61.59

Yooooo big win! I just officially took on a fractional CMO role for a cold email agency/software developer!

Now, I don't focus on teaching them to be copywriters, offer owners, etc...

Instead, what I focus on is creating systems and automations within their businesses.

So they can do things others can't do, connect the dots, and build their own models.

Once they can do that, they can imagine, pull apart, build and rebuild systems, automations and services in any market.

As a result, they each have a unique skill set that can't be copied and that also stands the test of time.

Here are a few things we build within their businesses:

- **Workflow Streamlining & Automation** - Automate repetitive tasks, eliminate bottlenecks, and streamline processes to improve productivity and resource allocation
- <https://calendly.com/theaimastery/strategy>
- **Custom Chatbot Creation** - Elevating their customer service and engagement. From intelligent virtual assistants to interactive chat interfaces, our chatbots offer exceptional customer experiences, streamline communication, and enhance efficiency across various platforms - <https://calendly.com/theaimastery/strategy>
- **World-Class Website Building** - Visually stunning, responsive, and user-friendly websites that captivate your audience. We create seamless digital experiences that leave a lasting impression - <https://calendly.com/theaimastery/strategy>

- **A.I Appointment Setters** - How To Leverage The Power of A.I Appointment Setters To Automatically Fill Your Calendar With Sales Calls & Scale Your Business Without Managing People - <https://calendly.com/theaimastery/strategy>

On top of the training I do, I also have my hands on their projects and offers, where I tweak the structure of their copy, their offers, help them with their ads and much more.

The price for each service varies, ranging from \$1,000 to \$10,000 (we do offer payment plans).

I'm going to double the price shortly because I'm hitting my bandwidth capacity issues where I can only help so many people.

The price will double to \$2k-20k (those who get in early will be grandfathered in)

How To Sign Up?

Here's the link to schedule a call if you want me & my team to personally work with you on your business:
