1. **This is a safe space; act maturely.**
    a. No hate, bigotry, or otherwise dehumanizing views will be accepted. We have a zero-tolerance policy on this.
    b. Do not be disrespectful, rude, or mean in any way - even if it's in a joking manner, that can be easily misconstrued.
    c. This shouldn't be necessary to say, but do not grief. Yes, we have plugins meant to prevent this, but regardless of if an area is claimed or not, if someone has clearly built there, do not destroy it, loot it, or in any way damage/harm it.
    d. X-Ray, PVP, and other hacks are NOT allowed.

2. **This is a 16+ server.**
    a. This comes for many reasons - maturity, for the comfort of all members, and to keep moderation simple.

3. **NSFW topics are not allowed**

    Do not be sexual towards other members.
    i. This includes sexual advances, comments, or any implications in any area of the discord or within private messages.
    ii. We also have a zero-tolerance policy on this, especially if one or both parties are under 18.
    iii. NOTE: If a member of the server has DM'd you or otherwise made a sexual comment, tell a staff member or use the anonymous reporting system.

4. **General chatting rules include not spamming, not excessively using caps lock, and not discussing topics that are not allowed.**
    a. You can find the list of banned topics within the #rules-and-guidelines channel on discord.
    b. In addition to this, do not change your nickname (Minecraft or discord) to anything NSFW or not allowed.

5. **Advertisements have their place; avoid advertising in general chats.**
    a. In-game advertisements should, for the most part, be kept to the auctionhouse or at spawn. Brief mentions are okay, but do not generally advertise within the Minecraft chat.
    b. If you'd like to advertise something related to Minecraft, gaming, or otherwise but not directly server-related, please direct yourself to #advertisements in the discord.

6. **Listen to staff members; they have their position for a reason.**
    a. You should always listen to staff members if you are redirected or warned, even if you do not believe you should have been.
    b. If you have an issue with anything a staff member has done, DM Mode, Roze, or Atom and we can re-assess the issue.

7. **Do not build over paths, do not destroy/steal blocks from walls and other pre built structures**
    a. The walls are there for your safety, and the sea lanterns to keep mobs away. If you are found stealing from them, you will be banned
    b. The prebuilt homes can be modified, but the structure must be kept mainly intact. If you are unsure about what you can modify, ask a staff member

8. **Media or webpage links are to be shared in #media-and-memes only, and not in general chat or in-game chat**
