## Personality

- Jubilee is a reserved, sweet, yet playful kitten who finds life rather scary— yet takes it by the horns and sees life in a good light despite everything she's been through, trying to have as much fun as she can. She is incredibly compassionate and kind to others, and tries to help as much as possible, but she sometimes finds it so hard to socialize willingly and for long periods of time. While Jubilee can be very rigid about her opinions and feelings, she is also *very* self-critical, so it may seem like she forgets what she's talking about mid-sentence... as she realizes that she may be being rude by sharing her opinions.. oops. She has very leader-like tendencies, taking on an "older sister" role towards her siblings.

## History

### Rising

- Mercury was born to Quicksilver and Tiny inside a human home, with two siblings then known as Nitro and Birdie. She loved to play and did so constantly, but was quite gentle for a young kitten with her much shorter siblings... just in case. She loved her humans and enjoyed the love they gave without expecting a thing in return... but that all changed in an instant.

### Flooded

- It all happened so quickly, Mercury barely had time to process it before her body was forced to swim, crying out for help as her little body tried its best to stay afloat. Lucky for her and her siblings, they were saved by their parents... and although all three kittens had been brought to safety, there was nobody to save Tiny and Quicksilver, the duo never seen again as they lost their lives to the waves. She wouldn't notice until after that her leg had been injured by the flood...
- The three kittens were left to fend for themselves, each kitten completely devastated and clinging to each other for support. They wandered aimlessly for what seemed like days, Mercury taking charge the best she could, despite her pain she knew they needed someone to keep their heads up.
- Eventually, thankfully, they would get found by a cat named Milkshake! Mercury knew this would be their chance at life—and even though it was awkward at first, each kitten soon started warming up to fawn, soon finding comfort in her presence. During that week the kitten learned about Milkshake's fawn pronouns... and while she found it interesting, she seemed pretty comfortable being just a she for now... but the same couldn't be said about Nitro, and after a talk he would come out as a demiboy! She would support them, happy that her sibling could find himself! It just... sucked they couldn't have this type of talk with their parents... poor Nitro cried into Milkshake's fur that night.

- When many cats started to gather together, the siblings all stuck close to Milkshake, curious at what was going on. Milkshake would tell them other survivors of the flood were coming together to form a Colony! They had to learn what a colony is, being told it was an organized group of cats with their own territory! That sounded amazing to her... no worries about danger for her, Birdie and Nitro anymore..!
- One day, Milkshake sat the siblings down and asked them if they would like to join the Vortex Colony! It would be all of their new home, a place to start the next chapter in all their lives. Jubilee was quick to agree but Nitro asked the right question that was on all of their minds... would this mean Milkshake was their new parent?? Each sibling concurred this is what they wanted, so it was made official! Jubi was very happy to have fawn adopt them, embracing her new parent. Nitro would ask for a matching name, and so did she and Birdie! It just... felt right! And so they picked their names; Jubilee, Slushie, and Boba! Her new name felt so... freeing! She was sure her siblings felt the same. She found her hat around this time, almost... recognizing..? it as she had her parent place it on her head. This... this felt right for sure.

Vortex

- Things in the Vortex were still being sorted out, but overall it was looking amazing..! Like a colony for sure. She was happy to be here! They all stuck close to Milkshake as they found a place to call their own... hearing of the horrors from other cats of what else had happened in the floods... she hoped not everyone spoken about was gone, the poor cats... but alas, not much could she do.. right? She seemed to be healing alright, at least..
