If you have any issues, please contact us at queenscollege.cds@gmail.com.

Upcoming Events

May

CDS Elections: May 2nd through May 4th

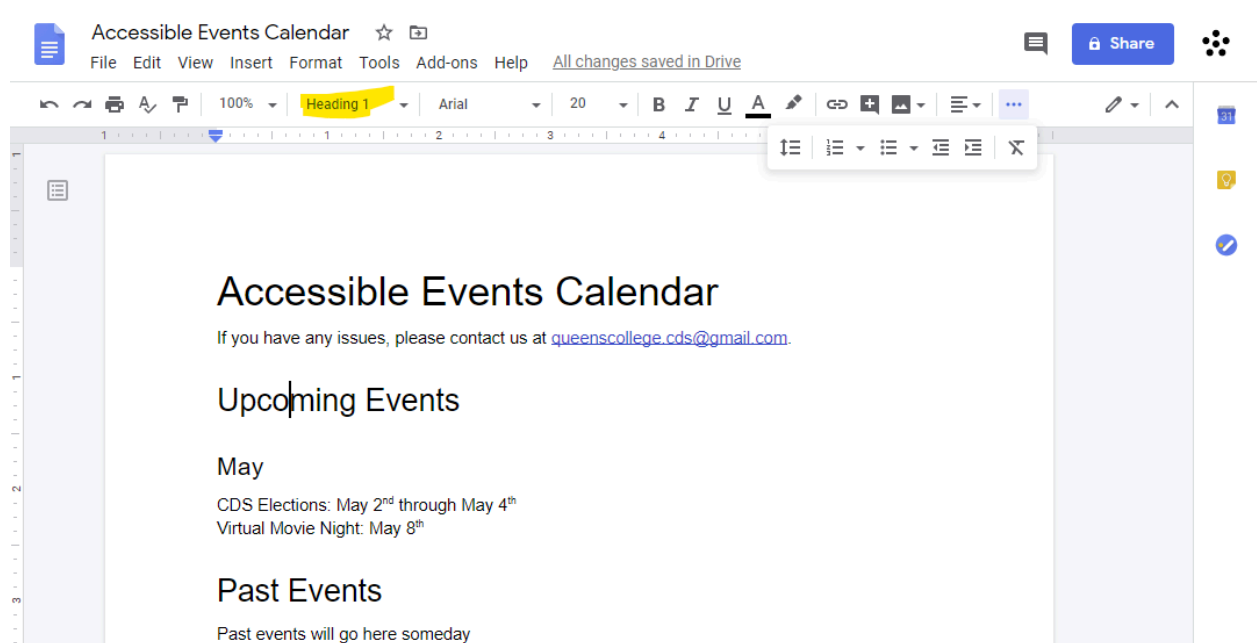

Virtual Movie Night: May 8th

Past Events

Past events will go here someday

How to maintain this

Screen readers make heavy use of semantic formatting to assist navigation through a document. If an editor selects a title or heading, they will see that instead of “Normal text” it will say “Heading 1” or something, as in the image below.

USE THIS SEMANTIC FORMATTING. Users of screen readers can jump between titles, different levels of heading, and between headings of the same level very quickly.
