

Mission Gaia

Community Gaia and The Alma Mater

Introduction

One of my primary studies over the last 30+ years was Societal Structures and Movements. I studied Ayn Rand, Plato, Karl Marx, Hitler (What not to do), Rome, Hammurabi's Code, John Filmer, Thomas Hobbes, Gandhi, Christ, Martin Luther King Jr, Martin Luther, William Tyndale, Machiavelli, The Age of Reformation, The Battle of Culloden, The French, Russian, Scottish, and American Revolutions, and the Musical 1776.

I loved watching how Countries and Societies are formed.

At 12 Years old, one of my favorite games was "How To Build Your Own Society," which I played with my friends. The "phase" lasted about 3 years.

That's right. I played "Society Building" with my friends. We become the games we play as children. What does that tell you about Human Psychology?

After 30+ Years, I have reached one conclusion : We don't have a clue what we are doing. Too much Hypothesizing. Too much "Set it and forget it."

Too much Rhetoric. Not enough Logic, which, ironically enough cannot coexist. I prefer Logic.

I am a Scientist.

I have three children. For the Non-Scientists in the room, that is Three Data Points. This allowed me to analyze my Parenting Behavior after Child #1, and change it for Child #2, which allowed me to analyze my Parenting Behavior after Child #2, and change it for Child #3.

The Mental Health, Prosperity, Growth of the 3rd Child to my 1st is night and day. Scientists don't "Set it and forget it." We run Experiment #1, observe and analyze three – four! – three times, and then we make adjustments and tweaks to improve. And then we do it again until we have things juuuuuust right. This is how Improvement and Optimized Perfection is achieved.

Ask any Chef inventing new recipes. THIS is how it is DONE.

Politicians and Governments are not educated or knowledgeable enough to do this. But I am. So is my Team. So is The Global Genius Group, which I organized for this very purpose.

Community Gaia is first and foremost a Laboratory.

A Societal prototype or Society 2.0 designed to allow for these very studies.

Now, before you think we're going in with cruel or unethical intentions, it is imperative that you understand three factors :

- Our Ethics
- The Psychology of Human Behavior
- The Science and Practices of Animal Behavioral Scientists

The Standard of Mission Gaia

Our Ethics

We live by [The 12 Ethics](#). We have taken an Ethical Vow to Do No Harm. I live to preserve the Power of Choice and the Point of Rejection in all others. My People – Gaia's People – all are very precious to me. We all are.

No one who participates in Community Gaia does so without knowing that Community Gaia is a Human Behavioral Observation Laboratory where we can continuously augment the

Educational System to Optimize Freedom, the 12 Ethics, Health and Nourishing Growth is all people who step into Community Gaia.

This is how that is done. Ethically.

The Psychology of Human Behavior

No accurate Knowledge can be obtained in an artificial environment. None. The Subconscious Mind does not work that way. The moment you put a Human Being in an artificial environment, your data is inaccurate.

Therefore, if you want to know how The Human Naturally behaves, they must be studied (Observed) in their Natural Habitat and not in an artificial environment.

The Science of Animal Behavioral Scientists

When Scientists observe Animals, there is only one way to do it. You go into the Field and you Observe. Preferably without their knowing about it.

It is a fact that when we Observe, we Study. Scientists do this on Purpose. No one person is being “zeroed out” in Community Gaia. It is the Society that is Observed exactly like a Doctor running a “check up.”

Exactly like your Quality Controller and HR is monitoring the Ethics of the Business. Exactly like that, in fact.

“You can’t study something without interfering with it and changing it.”

Yes. I know. But this is better than the current situation, which is better than nothing. And we have to start somewhere.

Also, Subconscious Minds do function differently when they know they are being “taken care of” and “looked out for.”

Laws were “put in place to protect the people from the Government.” Yeah. That didn’t work. CPS was put in place to [You Fill In The Blank]. Yeah, that didn’t work either.

But an Ethical Leader Group with Advanced knowledge in Psychology and Sociology with Societal Solutions also monitoring the Prosperity, Happiness levels, and Growth and Abundance of Society while constantly working to Solve and Upgrade the Quality of life?

Now that might! Let's try it! And, if it doesn't work, we will use Science, Ethics, and Psychology to do something different/better! And we are not starting from scratch. We have A Priori Evidence from Lab QED. And all signs point to "Yes!"

Mission Gaia : How It Works

We start with The Ashavana Educational System. The Educational System Scientifically Designed to Nourish The Individual in all areas of System Health, Function, Maintenance, and Growth.

In short, The Ashavana Educational System acts as a kind of Thermostat that allows the Scientists in Lab QED to "adjust the Societal Settings" on our Communities to empower the People to make them Prosperous, Abundant, Free, and Wealthy.

Now before you jump in and say, "That's a lot of control for anyone to have!" I have to tell you that I agree. Yes. Yes it is. However, ALL Educational Systems owned and operated by ALL Governments is EXACTLY that. In the US, dirty politicians run your Thermostat. Look around you. Is everything starting to make sense now?

People, however, were never told about this. Most Educators are ignorant of what Education really is... because their Education was so poor. The last people to disclose this information to others was Zarathustra, Pythagoras, and Plato who built and designed The Ashavana Educational System to Nourish, Protect, and Preserve the People. THAT is where this Curriculum comes from and why.

This is why Philosophers study Ethics. Because we are the Authors of Educational Systems. We are the Cultivators of Society. That is the True Vocation of a Philosopher.

Everytime you choose to read or listen, you are choosing to allow The Author to write your Mind. We cover this a lot in Triadic Healing Part #4 and Part #5. You are doing it right now. You consented to read. You consented to learn a New Logical Sequence. You have chosen to enter my Story.

We all have a lot to learn about what Education really is. Ethics go hand in hand with Learning. Which is why Educational Systems are so Powerful, required, and also MUST be overseen by the Highest of Ethical Order. To protect the People.

The difference between The Ashavana Educational System and the rest of the World? We tell you exactly what this is before we even get started and how it works. FULL disclosure. FULL

transparency. FULL consent. We HAVE to. An Ashavana is Ethically Honorbound to Serve and Protect the People with Ethical Law and Natural Order. The Highest of Orders.

We are your Servant.

The Ashavana Educational System (Aesir)

The Educational System is built on the Foundation of the Work of Zarathustra, Pythagoras, and Plato. Plato was the last person to modify this Educational System. It is the Educational System that I was raised on that turned me into an Ashavana.

I am modifying this System with two additional upgrades :

Science from Lab QED, which utilizes The Ashavana Scientific Method and Finland's Educational System

- Finland and Japan both are the World's Leaders in Literacy.
- Finland is the World Leader in Happiness.
- Finland also has one of the lowest Crime Rates in the World.
- Finland is one of the Scandinavian Countries that produces the greatest Leading Advances in Technology.

Our eyes are on Finland... and Japan... Because... You know... Three Data Points are required and these are the Best in these Modern Times. Pun intended.

Tier #1 : The Birth of Knowledge

Welcome to The World of Science. To understand this, you must know :

- Where Knowledge comes from : Mother Nature's Equilibrium (The Fulcrum)
- The Natural Learning Sequence inside the Subconscious Mind
- The Ashavana Scientific Method
- Where Intuition comes from and How Learning actually works

Knowledge comes from Observation through Experiencing Logical Sequence of Cause and Effect and the Observation and Application of Conscious Awareness that explores "Why" something happened (Physics : The Science of Movement and Logic : The Science of Progression and Sequence) and How something happened (Chemistry : The Science of Reaction) with Human Psychology (Psychological Physics : The Science of Physics and Chemistry inside Human Atomic Systems).

But, in Integrated Mathematics and Psychological Physics, we learn that Learning also comes from the Measuring of Mother Nature's Fulcrum in relative to The Self Fulcrum, which is your Personal Equilibrium, which is a mini-version of Mother Nature's Fulcrum.

We are born with a Natural Progression of Knowledge, which goes through a Series of Events. The Natural Learning Sequence and The Ashavana Scientific Method are identical. This is what Zarathustra, Pythagoras, and Plato discovered, and thus Plato's Curriculum was built around this.

Plato's Curriculum is what people now call "The Academic Disciplines." They are not random. They have an Order, which is Mother Nature's Order.

This is why every child "Beats Drums" at 1 to 2 years old.

The Sequence is as follows :

1. Curiosity +> Explore +> Discover +> Observe
2. Interact +> React +> Deduce +> Conclude
3. Repeat
4. Consistency = Truth
5. Inconsistency = Identify The Variables +> Study The Differences +> Ask "Why?"

With Repetition, the Knowledge is Integrated. Integrated Tuition is Intuition.

This Observation of Integrated Tuition – to the naked eye – looks like Memorization takes place.

This is a Logical Fallacy, which the entire Western Educational System is based on.

Wisdom Mining is a Skill developed when the Individual uses their Intuition to measure The Fulcrum with Observation and Exploratory Dialogue Skills, coupled with Deductive Reasoning. Application of Harmonic and Melodic Scope Positioning of The Perspective Scope allows for Perspective Navigation over a number of Points of Views, which are then Integrated into a Single Point called "The Integrated Omniscience."

Only then – at this Point – is Knowledge and Truth Known.

The Data is recorded. Logic, Math, and Physics are used to Validate the Data. This is called A Priori Evidence at the Ashavana Standard.

Now, – According to The Ashavana Standards – the Scientist is permitted to begin the Traditional Scientific Method.

And that is the Ashavana Difference.

This is the Process used to build all of Lab QED, The University Emporium, Community Gaia, and The Healing Garden Triadic Healing, and everything created/discovered by Anna Imagination.

This is called “Reverse Engineering Academic Disciplines” or “Wisdom Mining.”

Lab QED builds the Ashavana Educational System (AES or “Aesir” for Context), The Aesir is distributed to Community Gaia.

Ethical Leader Teams – One Lead and 5 Cultivators – are sent into the Community to Guide, Train, and Nourish the Community’s Cultivators. The Ethical Leader Teams have been trained to the Ashavana Standard for Psychological Safety Purposes to ensure that NO Harm comes to the People During the Learning Process.

The Learning Process – based on the Ashavana Research of Lab QED – is a Vulnerable position for the Subconscious Mind, which can cause significant damage to the Learning Journey of the Discovered Self, which can result in Mental Illness.

For this reason, only Ashavana Trained Specialists are permitted to teach. A thorough knowledge in Psychological Physics is required.

All Learning is DIY to empower and Nourish Confidence and The 12 Ethics in the Individual. The Ethical Leader Teams serve and “wait on” the Community much like Waiters in a Fine Restaurant.

“Can I get you anything?”

“What do you need?”

“How are you feeling this evening?”

That information is sent back to Lab QED, which we use to assess the Happiness, Nourishment, and Prosperity levels of the People.

Psychological Analysis is observed and the Program Aesir is adjusted based on Psychological Physics. Resource Distribution is monitored carefully to ensure people have the best to Optimize their System.

The Agenda has 3 Phases

1. Phase #1 : Emergency Phase
2. Phase #2 : System Stabilize Phase
3. Phase #3 : System Growth and Expansion Phase

Phase #1 : Emergency Phase

Resources and Education must be distributed immediately. Triage is vital and the society is treated like an ER with the greatest of Urgency. Planning, Organization, and Recruitment are vital in this stage.

For this Phase, we have a number of Marketing Projects and Events planned.

- Freedom Voice and Life Speak
- Mission Gaia
- The Radical Global Healing Plan
- Summit and Expo
- Peace Train (Pending for Onboarding)

Phase #2 : System Stabilize Phase

After the Emergency has ebbed, we will see a few shifts happen :

Scarcity-Induced Hoarding. Great Educational Dissection is required from Trained Professional to Nourish this. Think of a Starved Child who wants to gorge on food. We need Exposure Therapy tactics applied with Education while Resources are Distributed.

1. Concentric Industries is providing the Resources.
2. Community Gaia Distributes the Resources
3. The University Emporium Trains Professionals on the Psychological BackLash we can expect

Communities are planned and will be strategically distributed World Wide to accomplish this. Details on this Distribution will be covered shortly.

Anticipate Theft and Crime to increase here. "There is enough for everyone. All will eat. There is enough for everyone." This will be our Motto.

Marketers will be required to work with Psychologists and Lab QED on this.

Phase #2 : System Growth and Expansion Phase

At Phase #2, after the "Hunger and Starvation" has ebbed, we will witness a "Calm." This is the "Normalizing" Phase that allows us to Nourish and Stabilize Communities. This is when we will see numbers taper off.

This is where Psychologists can now go in and do their Work. This is where the world will Cry. Forgiveness and The 12 Ethics will be required. This is when the Scientists of Lab QED will have to buckle down and FOCUS.

Self-Sustainment is achieved here.

Self-Resourcefulness is found here.

Highly strategic Levels of “winging the people off the resources” from Dependence over to Independence will be done here.

THIS IS DELICATE WORK.

This is what we train for. This is why we require the BEST in Psychology behind us.

Phase #3 : System Growth and Expansion Phase

After the Communities are Self-Sufficient, Stable, and the Healing is Complete, then, and only then, can we begin to Grow and Nourish.

But the Communities must Grow and Nourish on their own. Phase #2 is about making that possible. The Ethical Lead Teams will remain in place always, but every Community should be Self-Sufficient and Poverty will have ended within the Communities.

This is where Lab QED will begin to measure Rate of Growth to confirm Community Health. Many Much plans are already in place for this phase. Our current research is for this.

In short, we are teaching the world how to dance with Mother Nature.

Mission Gaia Community Distribution

The Community Distribution has two Types :

1. Community Seeds
2. Community Upgrade

Community Seeds

Are the Community-To-Go Kits that will be distributed in the poorest of Communities.

- Supplies for Homesteading
- The Ashavana Educational System (Aesir)
- Triadic Healing Gardens with Medical and Mental from Lab QED
- Farming and Agriculture equipment and supplies
- Power and Energy Plants from Concentric Industries
- An Ethical Leader + Team

Community Upgrades

Community Upgrades are every in the Community Seeds, but can be dropped into a current existing community for an Upgrade.

Mission Gaia Organization and Planning

We are Global. We go where Poverty and Illiteracy needs us. Our call is to bring forth the Prosperous at the top, to nourish those at the bottom without practicing Enabling Codependent Practices.

Anna Imagination is currently working with Jared of Kenya, a Psychologist and Sociologist of Life Speak who is making plans with Teams and other Psychologists to onboard and spread the word.

At this time, we are Recruiting, Educating, and Planning.

Next, we are Scheduling and Organizing. David Lyons is coming onboard for this stage.

The Radical Global Healing Plan, Summit and Expo, and External Projects and resources hosted by others, will be powerful tools in spreading the word to the world to onboard and recruit all Psychologists and Teachers to band together in Radical Collaboration.

Concentric Industries is playing a vital role in providing resources and funding to Mission Gaia.

David Lyons is in the process of Onboarding and Organizing the process so we can best plan how everything needs to fit.

Anna Imagination oversees Ethical and Psychological health to ensure the Healthiest Societal Transition to Nourish Calm and Relief in all.

Our Transparency Is Meant To Be Shared!

Live Updates! Spread The Word!

This Document is The Transparency of Community Gaia, The Triadic Healing Gardens, The University Emporium, The Alma Mater, Lab QED, Anna's Playground, and Anna Imagination. [Our Other Transparency is available here.](#)

Feel free to share this Document with anyone you desire.

All Updates will be added here as Progress is Made so that The People can witness this process, stay informed, receive news LIVE as they unfold. [The Free Press](#) has an open Invitation to contact Anna Imagination directly for any and all news and updates regarding Community Gaia and Anna Imagination. They honor The Ethics. They are Community Gaia's Preferred News Resource.

[You are invited to join Community Gaia.](#)

If this is something you want to enter into, share this Document with others and [Get Started.](#)

Update : On 23 December 2024, The Radical Global Healing Plan was discussed with representatives of Officials who are presenting this Plan to Global Leaders for Review and Discussion to coordinate with the Signing of World Peace on D Day.

27 December 2024, The Alexandria Project was written up in detail and provided to Community Gaia. [You can read The Alexandria Project here.](#)

Our Ethics, Purpose, and Mission are outlined [here](#).
