1 Thoughtful Answer: How does this image expand your understanding of American Indians in Southwest Idaho?	

Reveal
This photograph of three American Indian residents of Southeastern Idaho was likely taken around 1897. The presumed photographer worked out of a studio located in Pocatello, Idaho. As you examine the photo, you may notice the variety of dress across the three subjects. As this photo was likely posed in a studio, it may represent idealized or formal dress among individuals from the region at the time.
