Art Paper Options for Custom Shopping Bags

Paperbag Indonesia manufactures custom shopping bags using **Art Paper** in two available material options.

210 gsm Art Paper

210 gsm Art Paper is suitable for many everyday retail and business packaging applications. It can be used for shopping bags, clothing, accessories, merchandise, promotional materials, and other retail products.

260 gsm Art Paper

260 gsm Art Paper provides a more substantial option for businesses looking for a sturdier and more premium-feeling shopping bag. It is suitable for premium retail packaging, gift sets, merchandise, corporate gifts, and other applications where a more substantial material is preferred.

The appropriate material can be selected according to the product, intended use, and desired packaging presentation.

Matte or Glossy Lamination

Custom shopping bags can be finished with either **matte lamination** or **glossy lamination**.

Matte lamination provides a smooth and understated appearance that can complement clean and refined brand designs.

Glossy lamination provides a brighter and more reflective surface appearance and can complement colorful or visually prominent artwork.
