Narrative Intro:

Boonhaven, part of the Cabulis System in Segmentum Pacificus, is under attack by enemy forces. Thousands of battles rage in space, in the air, and on the ground in dozens of worlds across the system. This is not a catastrophe. No. This is an opportunity.

Your masters have tracked relics of untold value to Boonhaven, and have sent their most elite agents to recover them. You are to use the invasion as cover to locate and secure the relics.

But you are not the only ones who seek this treasure. In the chaos surrounding the planet, your ship was attacked and boarded. Someone knows who you are, and they mean to stop you at any cost.

Notes: Standard Kill Team rules in effect. No Tac Ops, Crit Ops, or Kill Ops for any mission.
