

What information do we collect?

1.1 User-provided Data:

Our extension allows users to input their preferred AI service endpoint URL and API token. These user-provided data are stored locally on the user's device using Chrome's storage API and are not collected or transmitted to any external servers.

1.2 Web Page Content:

When users actively trigger the summarization feature by clicking the extension icon, our extension accesses the content of the user's currently active web page. This content is directly transmitted to the user-specified AI service endpoint for summarization purposes only. We do not collect, store, or process the web page content on our servers.

How do we use the information?

2.1 AI Summarization:

The user-provided AI service endpoint URL and API token are used solely to transmit the web page content to the user's chosen AI service for summarization. We do not use these data for any other purposes.

2.2 No Other Uses:

We do not use any user data for purposes other than providing the core functionality of the extension, which is to summarize web page content using the user-specified AI service.
What information do we share?

3.1 No Data Sharing:

We do not share, sell, or rent any user data to third parties. The web page content is directly transmitted to the user-specified AI service, and we do not have access to or control over the data processing practices of the third-party AI service.

3.2 Third-Party AI Service:

Users should review the privacy policy and terms of service of their chosen third-party AI service to understand how their data is processed and handled by that service.

Changes to this Privacy Policy:

We may update this privacy policy from time to time. Users will be notified of any changes through the Chrome Web Store's update mechanism.

Contact Us:

If you have any questions or concerns about this privacy policy, please contact us at ymmxza@gmail.com

By using the "AI Summarizer" Chrome extension, you agree to this privacy policy. If you do not agree with this policy, please do not install or use the extension.
