

ARLO. — 33. — DEMON SLAYER : KNY. — DIGIMON. — TRANSFORMERS. — [BASE WISHLIST.](#)

hello & welcome! i'm a colorist of character designs & ych clones who has been working at this since 2016, however i do *not* identify as a furry.

i primarily utilize furaffinity & toyhou.se to publish my works — if you see anything created by me anywhere else that isn't being advertised as a *resell*, it is not a legitimate creation by me!

this google doc is where i house all of my data for the smooth ordering & creation of custom adoptables. prices are firm & non-negotiable, forms must be completed in full for orders to be processed! if you have any questions about the ordering process or my work, don't hesitate to note me!

RULES.

—payment is accepted in **USD** via paypal or cashapp only. i use invoices wherever possible. no echecks.
—please be **as specific as possible** when ordering anything from me! if you would like transparent versions of any add-on that you request for your ref sheet, please *ask me for them* up front! if you would like nsfw additions made to the main image of the character you've purchased alongside nsfw closeups, please *ask me for them* up front! if you know that you'd like a sfw version of the nsfw ref sheet that you're ordering, please *ask me for it up front!* i cannot read your mind! it's very annoying to be told 'wait i thought my purchase included *blank* with it' when it doesn't say anything about it in the submission or here! please be as thorough as possible in your order form(s), that makes my job a lot easier!

—you *may not* resell any character purchased from me for more than what you paid for it unless you increase its value with additional art (bought or drawn yourself).
—art trades are accepted on a case-by-case basis. not interested in any character trades at this time, sorry!
—you *may* make changes to your character! it is yours, after all! however you **MAY NOT UNDER ANY CIRCUMSTANCES** edit the original art that i have provided. doing so is an automatic block & blacklist.
—you may reupload anything that i create for you to your own account as long as *proper credit to me & the base creator(s) is given.* please include links to the creators of each used piece like i do in my submissions!
—complexity increases price! this is not just for customs, but for references of existing characters as well!

STARTING PRICES.

the starting rate for my work is determined by marking / design complexity! customs that are simple palette swaps or with few markings start at **\$20** while more complex customs start at **\$30!**
individual prices are listed beneath their examples in the base compendiums linked at the bottom of this document! there are additional prices for accessories, closeups, headshots, nsfw upgrades, quad forms, & anything else listed below!
