This one is very simple but great owners (dear friends of mine) and he has offered to have me come stage it because the pictures are horrible, I just haven't had time. It is also right by the shop, you can almost see it from the my airbnb.

This one is also very close and is right on Main Street, parking could be a little tricky but other than that it is lovely.

this one of my favs and owned by one of my daughters fav teachers. the owner's live next door and it is one of the prettiest blocks. in my opinion. they do say 3 bedrooms and that is a little misleading the one "bedroom" is a fold out downstairs but beautiful home

beautiful and newly renovated historic Cotton Mill owned by Fairfield, right on the river. A few blocks off of Main Street so walking to shop depends on how many steps you want to put in. I would recommend car being available or golf cart rental.

Clifty State Park for the nature enthusiasts. It would definitely be an option that would need a vehicle but the park is amazing. great hiking, falls, and views over the river.
