1 Department of Pulmonology and Respiratory Medicine, Faculty of Medicine, Universitas Indonesia, Persahabatan General Hospital, Jakarta, Indonesia ← Arial, 10pt, italic, Capitalize Each Word, single space

Abstract ← Arial 10pt, bold, justify

Background: Abstract contains article components (background, methods, results and conclusions). Abstracts are structured with sub-sections with the provisions of sub-sections in bold and spiked before the next word. Abstracts are written in Indonesian and English with length no more than 250 words (and do not write citation citations. Abstract written with Arial 8pt font.

Methods: Abstract contains article components (background, methods, results and conclusions). Abstracts are structured with sub-sections with the provisions of sub-sections in bold and spiked before the next word. Abstracts are written in Indonesian and English with length no more than 250 words (and do not write citation citations. Abstract written with Arial 8pt font.

Results: Abstract contains article components (background, methods, results and conclusions). Abstracts are structured with sub-sections with the provisions of sub-sections in bold and spiked before the next word. Abstracts are written in Indonesian and English with length no more than 250 words (and do not write citation citations. Abstract written with Arial 8pt font.

Conclusion: Abstract contains article components (background, methods, results and conclusions). Abstracts are structured with sub-sections with the provisions of sub-sections in bold and spiked before the next word. Abstracts are written in Indonesian and English with length no more than 250 words (and do not write citation citations. Abstract written with Arial 8pt font.

INTRODUCTION ← Arial 10pt; bold; UPPERCASE; 1,39 spasi

The introduction section of a research paper consists of several important elements that require careful attention to ensure the research is clearly articulated and presented effectively. These elements include providing detailed background information about the problem being studied, articulating the research objectives and problem formulation, and summarizing theoretical studies relevant to the research problem. Additionally, the introduction can provide insight into the expected results of the research and outline the potential benefits of the research. It is important to follow the appropriate citation style for references, which in this case is Vancouver style. Text should be typed using 10pt Arial font with 1.39 spacing to ensure

clarity and readability.1

METHODS ← Arial 10pt; bold; UPPERCASE; 1,39 spasi

Includes research design, population and sample (research targets), data collection techniques for instrument development, and data analysis techniques. Typed in 10pt Arial font with 1.39 spacing. Writing citations using vancouver.1

RESULTS ← Arial 10pt; bold; UPPERCASE; 1,39 spasi

The research results presented are only the results of the analysis that need to be reported. Tables and graphs can be used to clarify the verbal presentation of research results, and should be commented on or discussed. Typed in 10pt Arial

font with 1.39 spacing. The accumulative number of tables and figures is 6.

Table 1. Table Example ← Arial 8pt; 1,39 space

Variable	N	%
A	50	20,00
....
....
Total	50	100,00

Table 2. Table Example 2 ← Arial 8pt; 1,39 space

		Disease		Total	P Value
		Positive	Negative		
X Examination Results	Positive	6.2 (62.5%)	9.8 (37.5%)	16 (100%)	0.001
	Negative	3.8 (37.5%)	6.2 (62.5%)	10 (100%)	
Total		10 (38.5%)	16 (61.5%)	26 (100%)	

The research results presented are only the results of the analysis that need to be reported. Tables and graphs can be used to clarify the verbal presentation of research results, and should be commented on or discussed. Typed in 10pt Arial font with 1.39 spacing. The accumulative number of tables and figures is 6.

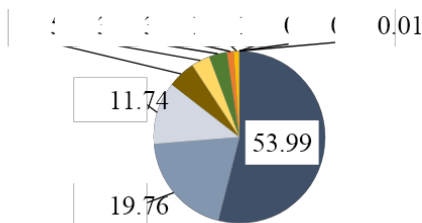

Figure 2. Figure Example ← Arial 8pt; 1,39spasi

DISCUSSION ← Arial 10pt; bold; UPPERCASE; 1,39 spasi

The discussion shows how the findings were obtained, explains the meaning of the research results, how the reported research results can solve

the problem, differences and similarities with previous research and possible developments. Typed in 10pt Arial font with 1.39 spacing. Writing citations using Vancouver.¹

The discussion shows how the findings were obtained, explains the meaning of the research results, how the reported research results can solve the problem, differences and similarities with previous research and possible developments. Typed in 10pt Arial font with 1.39 spacing. Writing citations using Vancouver.¹

LIMITATION ← Arial 10pt; bold; UPPERCASE; 1,39 spasi

Explain the limitations of the research, both in terms of respondents, analysis, etc. Made in one narrated paragraph, not in bullet points. Typed in 10pt Arial font with 1.39 spacing. Writing citations using Vancouver.

CONCLUSION ← Arial 10pt; bold; UPPERCASE; 1,39 spasi

Contains things that state the relationship between the variables studied. Made in one narrated paragraph, not in bullet points. Typed in 10pt Arial font with 1.39 spacing. Writing citations using Vancouver.

Contains things that state the relationship between the variables studied. Made in one narrated paragraph, not in bullet points. Typed in 10pt Arial font with 1.39 spacing. Writing citations using Vancouver.

Acknowledgments ← Arial 10pt; bold; UPPERCASE; 1,39 spasi

Write thanks to related parties, both research sites and respondents in certain areas. Made in one narrated paragraph, not in bullet points. Typed in 10pt Arial font with 1.39 spacing. Writing citations using vancouver.¹

Conflict of Interest ← Arial 10pt; bold; UPPERCASE; 1,39 spasi

Explain the conflicts that may be involved in carrying out research and writing. Made in one narrated paragraph, not in bullet points. Typed in 10pt Arial font with 1.39 spacing. Writing citations using Vancouver.¹

Funding ← Arial 10pt; bold; UPPERCASE; 1,39 spasi

Explain the sources of research funding. Made in one narrated paragraph, not in bullet points. Typed in 10pt Arial font with 1.39 spacing. Writing citations using Vancouver.¹

REFERENCE ← Arial 10pt; bold; UPPERCASE; 1,39 spasi

1. References are typed in 10pt Arial font with 1.39 spacing. Using the latest literature, namely from the last 5-10 years with a proportion of 80% journals and 20% other reading materials.
