All students are welcome regardless of faith background. This is a student led Bible Study with teacher advisory as well as intermittent guest speakers. The discussion is facilitated from a Christian worldview and not a denominational perspective. The study strives to create a welcoming space where every student can explore the Bible, are encouraged to ask questions, discover God's story and experience the hope and love of Jesus. The students teach from the curriculum provided by the organization Campus Faith Clubs (<https://www.campusfaithclubs.org/>). There are also intermittent outside of school service opportunities.
