

Media: Agenda Day 7, Christchurch Cohort 2, 2019

[Register your attendance on arrival please using this Form](#)

Agenda:

Morning tea: 9:30 am

Lunch: 12 pm

Connecting with each other	Connecting with Manaiaikalani	Resources shared
Learn	Create	Share

Learn:

1. 8:00am 30 mins		Connecting with each other Karakia: Connecting with a great group of educators WWW - What has worked for you since the last time we met? - What hasn't worked (or made sense)? - What do you need help with?
2. 8:30am 30 mins		Deep Dive Live streaming Youtube ksomerville@ptengland.school.nz
3. 9:00am 30 mins		Connecting with Manaiaikalani The Manaiaikalani Pedagogy: Learn Create Share Today we focus on Connected Hangout Link

30 mins

Break

4. 10:00am 20mins		Chalk 'n Talk: Youtube Channel Playlists
5. 10:20am 10 mins		Explore: Sort your Youtube channel Create playlists
4. 10:30am 20 mins		Chalk 'n Talk: Google Draw
5.		Explore:

10:50am 10 mins		Check out the examples on slide 2 Create a round About Me button for your blog sidebar
6. 11:00am 20 mins		Chalk 'n Talk: Google Slides
7. 11:20am 10 mins		Explore: Slides explore Check out the Create examples on slide 13
6. 11:30am 30 mins		Levelling Up Join a group for further support in: Slides - Coach 1 Draw - Coach 2 Youtube - Coach 3 (if you have one, otherwise omit this)

60 mins

Lunch

Create: Making meaning of content

1:00pm 60 mins		Time to get creative with Slides: select one of these • Create a pick a path story • Create an animation • Digital pepeha (presentation) - Ngā Oro Māori • Kīwaha for teachers - Create a presentation to support colleagues who do not speak Te Reo Māori • Create a slideshow representing a verse of a song, a whakatauki or a short poem Digital pepeha guide
-------------------	--	---

Share: Embed and Rewind Content

2:00pm 60 mins		Blogging Tips: - Blogger settings (v Youtube) Time to reflect and share with colleagues • What did I learn that increased my understanding of Manaiaikalani kaupapa and pedagogy? • What did I learn that could improve my confidence, capability or workflow as a professional? • What did I learn that could be used with my learners? • What did I learn that could improve my confidence, capability or workflow in my personal life?
-------------------	---	---

Connecting with each other using the WWW process

Feel free to write in this table prior to our session if you have time- if not, we will take notes as we go...

What has worked for me since the last time we met?	
Harry Romana	I am still consolidating my knowledge of Google tools, in particular, Google: Docs, calendar, keep, and drive. I am using the tools as part of my everyday practice. Our recent Staff only Day (30th August 2019) had a lens of Learn, Create, and Share. I have an interest in finding out more about the Google lens tool. I enjoyed planning and building a useful Google site.
Jess	Setting up a new Library Webpage. This is all coming together well as well as my class site. It has been good getting to play around with some of the new features.
Kathy	I continue to learn and grow my digital skills every day. I am mindful of keeping up with commenting on the kids' blogs. I am definitely making better use of Hapara's capabilities. We are adding opt in workshops to our writing sessions and i am planning to make these rewindable.
Melissa	I am continuing to make efforts with giving more time to blogging for students and have also been creating more digital resources for sharing in our team. Our team have enjoyed utilising hapara more effectively and continuing to add to our hub site.
John	Presented taster session on Google sites to whole staff (3 groups for 12 minutes 23 seconds). I'd added a new page to the site Harry Lucy and I

	made during DFI session 3. I asked them to share with me some sites they had found useful, which I then added to the sites.
Tracey	Set and ready to start Blogging with my class next week. Trying to use Calendar - new habits
Paula	I am consolidating my google tools and enjoying the new ones I have used. Calendar, keep and ipad use. I have been exploring google sites.
Rebecca	Continuing to work on our class google site - updating it and going through it to make sure it is all accessible to everyone, checking all the pages make sense and look good.
Helen	Spent time putting my planning on to slides and sharing with my kids. Also have been playing with our hubs google site making it pretty!!
Bernard	Students working on speeding up their blog posting- working on 4 posts this week! Commenting on 2-3 students a day blog posts Now have fluid working of my site following last weeks session- much easier to manipulate items
Lucy	Just consolidating knowledge...all working really well (started my google site and am very happy with progress so far!)
Sharon	Had more of a play with the site and tidied more up. Actually did a class blog post and have commented on kids blogs, which I've been struggling to find the time.
Angela	Doing more of my planning and sharing slides with children. Including more multimodal content. Making my class site more ipad friendly being aware of end users and their attention span.
Angela	Have played around with my sandpit site. Ensuring the site docs etc are visible.
Kimberley	Continued to play around with Google Sites. Students enjoying posting on their blogs.
Sharon T	Tidying up google site to match school colours. Scratch group still going well - got three of our most challenging to create something and share on blog!
Mel Raisin	Set up site pages for each IKAN math aspect
Nicole	Using more and more of google tools..
Kris	Using Google Admin and using Hapara more often.
What hasn't worked (or made sense)?	
Harry Romana	I'm okay, most things have worked and starting to make sense. If anything, it is just an in-depth knowledge of the functionality of each of the Google Apps.

Jess	
Kathy	Our team is still keen to use a team drive, am still unsure about this?
Paula	I am ok at this stage.
Melissa	I am okay thanks....just continuing at my own pace.
Lucy	Nothing...all good at this stage
John	One of my students had presented an excellent speech at Korimako and it was a livestream link https://ngaitahu.iwi.nz/culture/manu-korero-live-stream/ I emailed Shipley Audio, Vimeo, PPTA, Lincoln Uni, Taha Rado to try and get an MP4.. They all passed the buck and e-parcel. In the end I downloaded a Microsoft programme (sorry about that Mark - YES Microsoft)) called Expression Encoder 4, which allowed me to play the video onscreen and export it as a .wmv file. Then used VLC to convert from .wmv to MP4. What started as a 30 minute job turned into 3 hours. Is there a QUICK Google way to do it?
Sharon	Nothing ... all good
Mel Raisin	Trying to get google sheets to do things that they can't do
What do you need help with?	
Harry Romana	Do you know of any Google conferences during Term 3, 2020? I have a sabbatical and wish to attend an overseas Google conference.
Jess	Can you set the image carousal to change the size of pictures? E.g landscape and portrait picture. I am assuming you need the same size and direction of picture for this to work well?.
Paula	I would like a reminder how to make groups.
Lucy	Nothing at this stage....seem to be running smoothly
Bernard	Noticing students default blog posts are slideshows- need to be more creative & use a range of apps for posting to make the blogs more exciting
Sharon	All good thanks
Mel Raisin	Getting google sheets to do things it can't ;-)
Kellen	Setting up a school radio station to stream content. Happy to hear about options for streaming (audio only) :).
Sharon t	Still having issues with signing into youtube,
John	Quick Google way to convert livestream video to .wmv and MP4.. How do we stop a site becoming too unwieldy - sub-pages.
Nicole	Shared drives,
Kris	All good thanks.
