

Guide by

[Gatocán](#)

- 1.- Download https://www.flyvpn.com/files/downloads/FlyClient_3.2.0.2.exe
- 2.- Close steam client
- 3.- Enter to <https://www.flyvpn.com/en/freetrial> and take an username and password from trial (on right column)
- 4.- Open FlyClientInstaller_3.0.1.8.exe and log in with the account
- 5.- Select Europe and then Russia
- 6.- Click connect
- 6.- If conection is successfully then log in again in your steam account and activate the game from your inventory.
- 6.- Now log out from steam client and close the vpn program.
- 7.- All right! Now you can download and play Dragon Ball Xenoverse, only VPN is required for the activation, you don't need it to play, all features are enabled (multiplayer, co op, etc).
