WATERFALL COLOSSEUM:

- Waterfall is a weird colosseum, I recommend documenting the waterfall patterns you get when doing attempts so you can have the best team combination/knowledge of patterns in AI.
- <https://docs.google.com/spreadsheets/d/1-CH3CiQW9YGwiZEWZykjxt4k0HoP7kUK3sN0f5WxTxE/edit?usp=sharing>
- Above shows an easy way to document what order you fight each trainer's pokemon.
- This makes figuring out the best order to select your pokemon for each fight, everyone has different Waterfall's
- Thank Pokehero64 for the idea/template.
- Poliwhirl may have Water Absorb

NEON COLOSSEUM:

- When you press the A button to let the Poke Ball drop on the wheel, it'll spin about 3/5 around before it lands
- Unless otherwise noted, aim for your **Monferno**
- Towards the end of the selection by the 3rd and 4th Pokemon, aim for Pokemon that are hard to kill, (Gabite, Wigglytuff, etc.)

- Most of the colosseums from here on out are Double Battles, so your first **two** pokemon usually matter.
- Whenever there are 2 of the same pokemon, (2 Monferno for example), you differentiate the 2 by seeing what Pokemon are next to them on the wheel. If the pokemon next to Monferno belongs to you, its not your Monferno.

## SUNSET COLOSSEUM:

- This is very much a "Play Pokemon well" Colosseum, follow the guidelines, but otherwise good luck
- Try to get at least 1 perfect point
- Vulpix has Flash Fire

~~~

1. Stewart:

Rotom, Vulpix, Victreebel, Graveler, Plusle, Monferno

Your team: **BEST- Vulpix, Rotom, Staravia, Graveler**

(Replacements-Butterfree/Gloom/Plusle)

~~~

Have **Rotom Ominous Wind+Shock Wave** everything

Have **Vulpix Flamethrower** everything, "Play well"

Focus on the **Rotom** first

**Monferno has Torment**

~~~~~

2. Grace:

Gabite, Chimchar, Dragonair, Shelgon, Monferno, Combusken

Your team: **BEST- Dragonair, Gabite, Shelgon, Combusken**

~~~

**Dragon Rage Spam.** Clean up with **Combusken**

Target the **Dragons first**

Target **Monferno next**, it has Torment

**Combusken and Chimchar have 80 HP**, so double target them if **Neither** Dragons or Monferno are out with them

~~~~~

3. Tamara:

Lombre, Carnivine, Pelipper, Combusken, Vulpix, Mawile

Your team: **BEST- Vulpix, Pelipper, Staravia, Combusken**

~~~

Not getting an electric type here SUCKS.

If you don't get an electric type, consider bringing other pokemon that isn't listed above like

**Kriketune, Butterfree, Gloom**

If I don't get an electric type, typically like to *keep the Pelipper confused* with either Water Pulse, or Confuse Ray depending on what else is out, and try to kill the rest of her team

If you don't have a perfect point by now, try to get one here (or go into Dusty with no Perfect Points)

~~~~~

4. Dusty:

Riolu, Luxio, Gabite, Combusken, Vigoroth, Grovyle

Your team: **Luxio/Staravia, Vigoroth, Grovyle, Gabite**

Dig Combusken (range)  
Dragon Rush everything else.

**Grovyle:**  
*Overgrow helps*

Crunch Grovyle  
Leaf Blade everything else

~~~~~

MAGMA COLOSSEUM:

- This is a Point Based Waterfall Bracket, where your loses matter less than the amount of pokemon that faint in each Battle.
- ***We will be skipping the 3rd Fight regardless***, but if you get good enough RNG, we can also skip the ***5th*** fight.
- This colosseum is also ***Single Battle***, so only the first pokemon matters in terms of order

Lawrence:
