Technology Protection Plan

Please read this entire document to determine if this plan is needed for you and your child's protection against the cost of damage to the loaned device (Chromebook or iPad) in your care. This plan is available for all students in grades K-12.

Coverage and Benefit

This annual agreement covers the Chromebook or iPad ("device") loaned to the student against the following accidental damage costs. This agreement costs \$40 per student per school year for a total of \$400 worth of repairs, replacement, and/or labor costs. Any costs above and beyond \$400 will be the responsibility of the guardians/student. The charger is NOT covered and is the sole responsibility of the student/parent. Coverage is 24 hours per day. Damage(s) due to intentional reckless, willful, wanton and/or malicious conduct is not covered.

Effective Date and Expiration

Coverage is effective from when this technology protection plan is purchased through Infinite Campus. Subject to immediate termination for the failure to timely pay the premium, the coverage shall end on the date that the device is required to be returned to the school, whether or not that device is returned to the school by that date. This is an annual plan.

Premium

The total annual premium cost is \$40 for the 2025-2026 school year. Payment is due by September 30, 2025, for the plan to continue to be in effect. The Technology Protection Plan is non-refundable. The Building Administrator, in its sole discretion, will determine if damages were due to intentional, reckless, willful, wanton and/or malicious conduct. This is an annual plan, previously purchased PLSD Technology Protection Plans will NOT cover the new school year. This fee is not subject to waiver for free and reduced students as it is an OPTIONAL fee; students/parents are NOT required to have this coverage.

How to Purchase the Technology Protection Plan

To purchase the Technology Protection Plan, log into your Infinite Campus Parent Portal, and under the fees section, the technology protection fee is automatically assigned. You must pay for the plan for it to be active. If you do not pay for the plan by September 30, 2025, the fee will automatically drop off of your child's account. Reminder this is an annual plan and does NOT extend from one school year to the next.

If the Technology Protection Plan is NOT Purchased

All damages and replacement parts will be charged at the current market rate with a labor fee of \$40-\$100 determined by the repair. Damage fees without the Technology Protection Plan will range between \$50 – \$300. If the cost of the damage exceeds \$300, then a new device will be issued at the cost of \$300. All damage, replacement parts, and labor costs will be applied through the parent portal in Infinite Campus.

If Your Device is Damaged (if you have the Technology Protection Plan or Not)

Take your device to the Media Center and inform the Media Center Specialist/Aide what the issue is with the device. A loaner device will be supplied during the time in which your issued device is being repaired. Loaner devices are only available to students who have submitted a damaged device to the Media Center.

Any questions or concerns about fees need to be addressed through the Pickerington Schools Treasurer's Office.
