

Before importing the content, please watch out these:

- Use [WordPress Reset](#) to clean the database and import the data from scratch if needed. After that, don't forget to pick Metz from "*Appearance > Themes*" to see the theme.
- Please ensure that you've installed and activated all of the plugins before importing the data.
- Demo content does not include the *Shop* section on our demo site.

## STEP 1) IMPORTING THE DEMO CONTENT

Follow the steps below to import the demo content:

- a) Navigate to "*Tools > Import*".
- b) Click WordPress.
- c) Click Browse and point the xml file you've got.
- d) Click Upload file and import and wait.
- e) When the page refreshes, assign authors from the drop downs, check Download and import file attachments and click Submit. You're done when the process is finished.

## STEP 2) SETTING YOUR MENUS

Please set the menu locations to see the menus properly. To do this, navigate to "*Appearance > Menus*", select the menu you want to show and check one of the location checkboxes. Demo settings are like that:

(Menu Name : Menu Location)

toPrimary : Primary Menu

toHeader : Header Menu

toFooter : Footer Menu

## STEP 3) THE SLIDER

To see the slider, please navigate to "*Appearance > Customize > 4. Slider Settings > 4.1. Shortcode*" and place the code below:

```
[new_metzslider group="demo_fullwidth"]
```

Alternatively, you can check "*Show Blog Posts in Slider*".

#### STEP 4) GENERAL SETTINGS

a) Navigate to "*Settings > Reading*" and;

- Choose "*Your latest posts*" for "*Front page displays*".
- Set the "*Blog pages show at most*" to 12.

b) Navigate to "*Settings > Permalinks*" and choose "*Day and name*".

c) Navigate to "*Appearance > Customize*" and set the values like below:

- 3. Header > 3.4. Logo Image: Upload your own logo.
- 6. Layout Options > 6.4. Listing Style Options: Set all inputs to 4.
- 9. Post Format: Gallery > 9.2. Gallery Position: Choose "*Instead of Featured Image*".
- 16. Social Accounts: Write the URL addresses of your accounts that you'd like to see.
- 20. Banner Management: The banner placement choices on our demo site are Below Blog Posts and Post Pages (Below Post Comments). You can use the code below for your banners:

```

```

THAT'S ALL! If you followed the steps above, now you should have the same look with the demo site.
