

VampireGames

Presents his GFX Terms of service.

Introduction:

Hey, I'm very happy that I'll be working with you with thumbnails, logos, banners, etc, this is basically my TOS, this includes my rules, etc, here I'll explain everything and how you can start working with me, I'll divide this into 2 parts, rules and requirements.

Rules:

These rules must be followed or I won't be working with you, etc.

1 - No toxicity

I don't want toxicity in my DM's, just ask nicely.

2 - "Free" stuff.

I don't give free stuff, GFX programs cost 3000-4000\$, I only charge really cheap amounts of money, I also give sales to people that are nice.

3 - Spamming

I hate when people spam me, please don't spam me, if I don't respond to you then I'm probably sleeping or out, just tell me how you want it to be while I'm afk, etc.

4 - Stealing

Stealing IS NOT allowed in any cost, if you start claiming it as yours, you'll be blocked, I'll also claim that your lying, I get multiple proof when I make my GFX to people, it won't help you to just claim it as yours right away.

5 - Trolling.

I can easily know who's trolling or not, if you troll you'll be blocked.

6 - Wasting time.

This comes as changing your mind so much, when we start you should make up your mind, if your not happy with the product tell me I'll redo it but changing your mind while I'm mid working on it is not tolerated, you'll be blocked.

7 - Scamming

If you scam me, you'll be blocked, scamming me is not a big deal because you don't get the real version unless you pay me.

If you fail to follow these rules, you'll not get what you want and you'll be blocked,

Requirements:

This will be really short.

1 - Logo & Banner Credits

I'd like to get credits for my stuff, basically, go to your most recent video and put this.

Logo/Banner Maker: VampireGames#7803

Go check him out! He's really cheap, he made my logo and my banner. (

If I didn't make I only made a banner for you and I didn't make a logo, then change it to he made my logo! Or he made my banner! Same with the logo.)

2 - Thumbnail credits

I'd like to get credits for my stuff, basically, go to the videos that I've made a thumbnail for and put the following.

Thumbnail Maker: VampireGames#7803

Go check him out! His prices are really cheap and reliable, he also made me this thumbnail I used for this video.
