

iPad - Guide to Checking and Clearing Storage

Please follow this guide to check and clear your iPad storage.

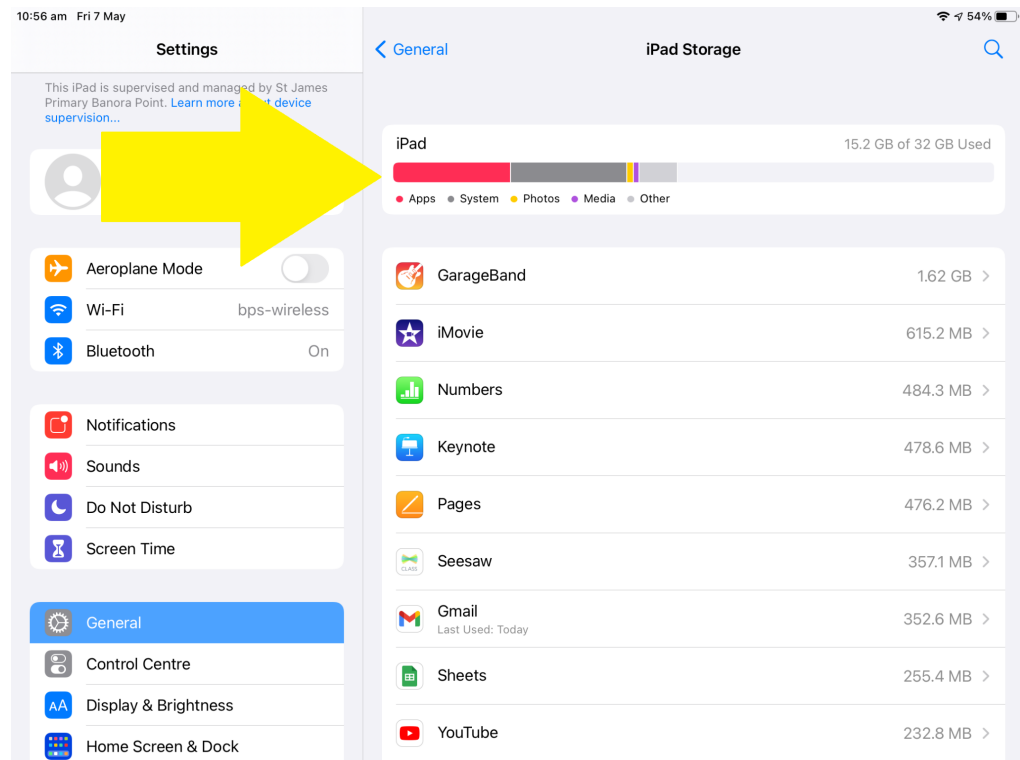

1. Open "Settings" from the Utilities folder.

2. Open "General" and then open "iPad Storage".

3. Use the bar at the top of the storage section to determine what is using your storage.

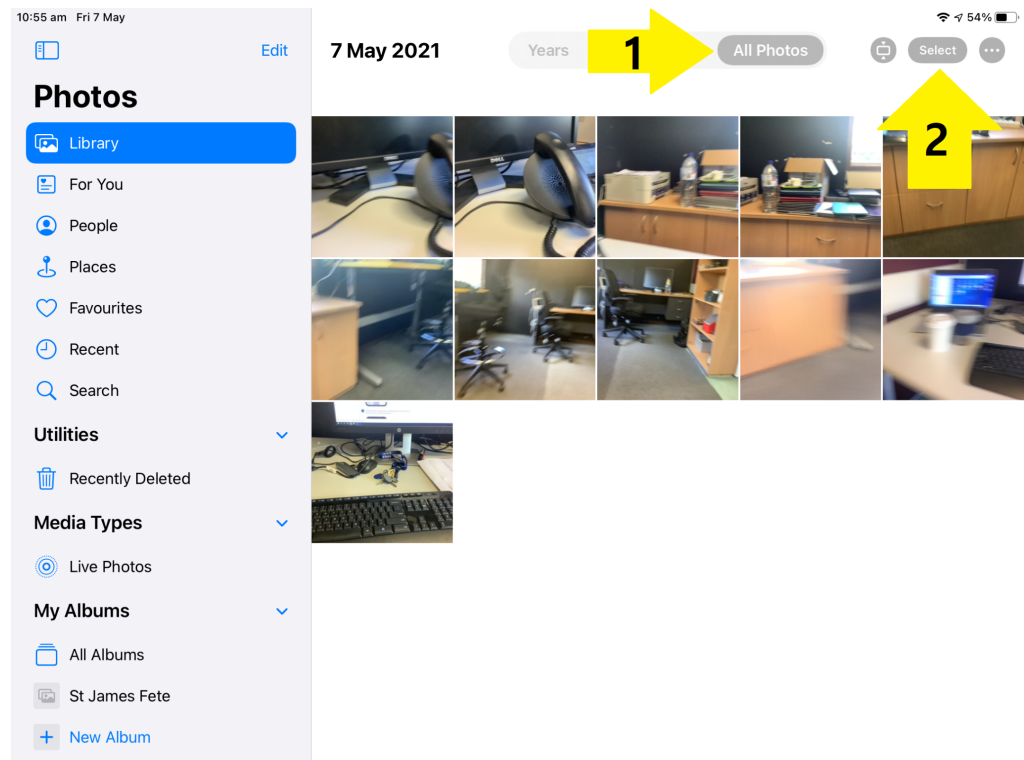

If you find your storage is low (below 2gb remaining) and depending on what is using your storage, do the following:

Photos - Continue following this guide.

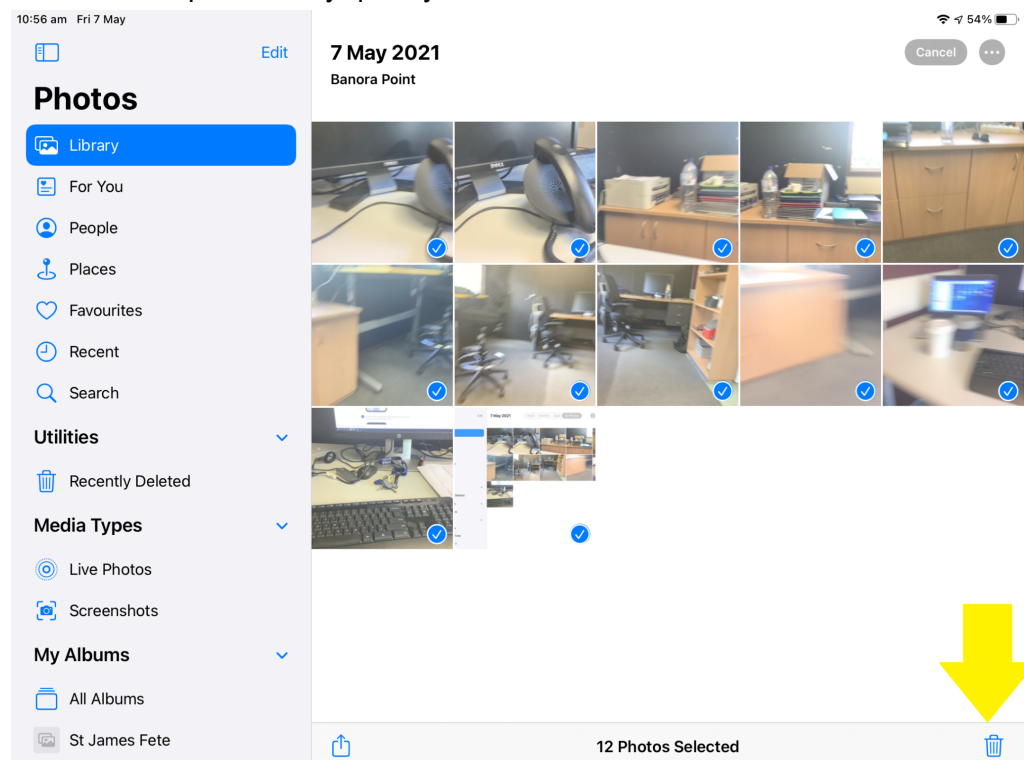

Apps, System, Media, Other - Ask your teacher to raise a helpdesk ticket.

How to delete photos and video

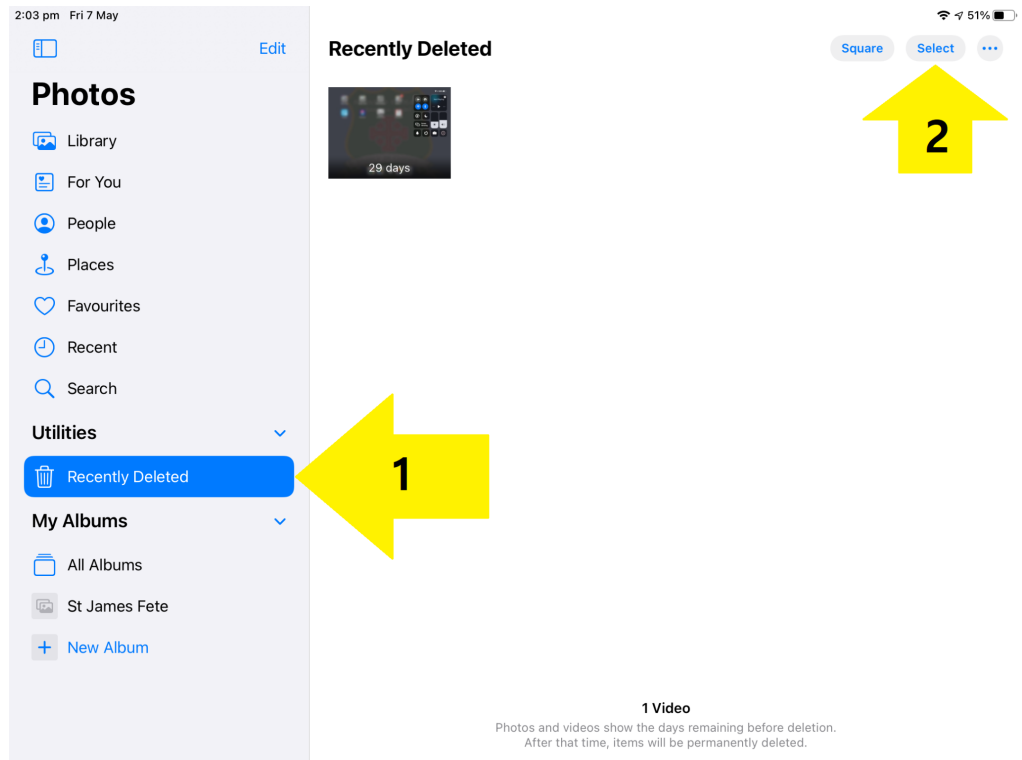

1. Open “Photos” from the “Utilities” folder.
2. Make sure you are looking at “All Photos” and press “Select”

3. Select the photos you want to delete. Press the trash can at the bottom right of the screen to delete the selected photos.
Tip: If you run your finger horizontally across the photos you can select a lot of photos very quickly.

4. Select the “Recently Deleted” album and select.

5. Select “Delete All”
