

Incident Report: Anomalous Cybernetic Arm

Date: February 12, 2025

Time of Incident: 1700 hrs

Location: Site 65, Heavy Containment Zone

Personnel Involved:

- LCPL. 'Sheriff'
- LTCOM. 'Praetorian'
- Consultant. Jackal Tierson
- Omega-1 and Medical Department

Incident Description:

At approximately 1700 hours, LCPL. 'Sheriff' was part of a reconnaissance team conducting routine patrols near a designated zone in Heavy containment zone. The team reported a sudden and violent fluctuation in the local environment, causing a temporary loss of communication and positional data. LCPL. 'Sheriff's unit was unable to maintain visual contact, and after a brief period of silence, LCPL. 'Sheriff' reappeared approximately 200 meters from the anomaly's epicenter, disoriented but physically unharmed.

Upon his return, it was immediately noted that LCPL. 'Sheriff's left arm had been replaced with an advanced cybernetic prosthesis. The limb exhibited characteristics not consistent with any known military or civilian cybernetics. The arm displayed high functionality, superior to current military standards, with embedded multi-tool capabilities and an adaptive interface with his neural system.

Immediate Actions Taken:

LCPL. 'Sheriff' was quickly secured and transported back to Medbay for examination. Medical personnel conducted an assessment, confirming the anomalous nature of the cybernetic arm. Consultant Jackal Tierson, was alerted to analyze the arm's systems. Preliminary scans indicated unknown materials integrated into the prosthesis, and its neural interface showed signs of advanced AI integration not present in any known technologies.
