Geosim Post Hall of Fame

This is the Geosim Post Hall of Fame, where all the best posts of each Season are bundled together. Due to this being compiled during Season 6, many good posts that did not get many upvotes in previous Seasons are not there. That's why you can always go into your own post history and submit posts you made in the past that you believe are good.

This is not 100% a guide to what posts are realistic and not. Many older posts, especially in Season 4 and Season 3, do not meet today's realism standards. But they're still included because they fit the immersion of those particular Seasons, and added greatly to those Seasons. Often the ideas in them are also still useful as inspiration, even if the execution wasn't always perfect.
