A Look Into The Future

By Nellie Parks (S3) Category: Poem
Knox Academy

Green, green everywhere,
Hear, near and over there,
Birds tweeting their happy song,
The rumble of cars gone for long,
Eco friendly shops are thriving,
CO_2 no longer rising,
Little plastic in the shops,
Everyone doing little clothes swaps,
EV chargers dotted about,
Nasty fumes on their way out.

Everyone now one big community,
All around an eco opportunity,
Education system different,
Teaching people to be efficient,
People are more mindful,
Of the things about that are so vital,
No more being careless,
A lot more awareness,
The facts were faced,
So people came together with haste.

Even though there are still problems,
Together there is a hope that blossoms,
East Lothian is now a better place,
No matter what it's had to face,
Long forgotten things came back,
Leaving success in its track,
East Lothian is now a better place,
With an eco smile on its friendly face.
