

International Teacher Log-In Instructions

These instructions will help you access the GCP Google Workspace domain (fcpsgcp.org). This is the workspace we will use for the **FCPS Global Classroom Project**.

An email will be sent to you with your username and password.

- Visit **Google.com** and select **Sign In**
- In the email address field, enter your **username@fcpsgcp.org**
- Enter your **default password**; when prompted, please change it

When prompted, set up **2-Factor authentication**. It is **very important** you set this up. If you do not, you will not be able to access your account.
