

Why Joe Biden Must Be Impeached

Why is there an impending impeachment Joe Biden in the works? It's because it has become clear, and is becoming clearer every day, that **JOE BIDEN HAS COMMITTED CRIMES OF BRIBERY AND TREASON**. Joe Biden sold both his political influence over foreign policies, and access to the White House to foreign businesses and nations — *some of which are our enemies* — using his son Hunter as his bagman, thus making the Biden family very rich.

Whatever else you may think, just remember that even before the hearings started we already had evidence in the form of Hunter's laptop, emails, and texts (all verified); Audio; Videos; Phone calls; Sworn eyewitness testimony from Hunter Biden's business partners Tony Bobulinski, Eric Schwerin, Devon Archer, and Gal Luft; FD-1023s; More than 170 IRS Suspicious Activity Reports; Congressman Comer's ongoing investigation with bank records proving over \$20M in foreign money transfers involving more than 20 Biden shell companies into Biden family bank accounts, including offshore bank accounts; Direct correlations between foreign money payments to the Bidens and changes in US policies; Flight logs; and multiple, Three pseudonym email accounts that then-VP Joe Biden used to conduct his illegal business dealings; and lastly, credible FBI and IRS whistleblowers, all of whom came forward and **literally brought the receipts**.
