## TAC DOI Validation Checklist:

Thank you for volunteering to help with the TAC DOI process! This should be an easy way to help the category theory community, and by collaborating things should be pretty efficient ^\_^

First: Pick a volume (or two, or three) that nobody has volunteered to take (see the “checklist” section of this document)

Second: Go to the TAC website (<http://www.tac.mta.ca/tac/>) and scroll down to the volume you chose.

Third: For each article in that volume, please check that the metadata appearing on that article’s abstract page are correct, and that the page is formatted correctly. In particular, check that

1. The title and authors are correct
2. The abstract is formatted well
3. The pdf link works, and goes to the correct paper
4. The DOI link works, and goes to the correct paper
5. Anything else that’s “obviously” wrong.

In most cases these should be fine, which should hopefully make the process go quickly. In case there’s a problem, please indicate the relevant articles in this document so that we can go back and fix their metadata and homepage.

Thanks again for helping out ^\_^

## Checklist

I've also indicated the number of articles in each volume, so that people have an idea of the relative amount of work they're volunteering for. Eg, Volume 1 has (9) articles to check, while Volume 32 has (46) articles to check.

Please write your name next to any volume you volunteer to check (so that we don't accidentally duplicate work), include any comments on the relevant page of this document, and then check the box when you're done!

|                                         |                                         |
